Class A Shares	MSFDX
Class T Shares	MSFYX
Class C Shares	MCFDX

July 1, 2019

Destra Multi-Alternative Fund (the “Fund”) is a Delaware statutory trust that is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as a non-diversified, closed-end management investment company and operates as an interval fund. The Fund makes investments as described in the Fund’s prospectus dated July 1, 2019, as may be supplemented from time to time (the “Prospectus”), which is incorporated herein by reference, with the proceeds it receives from the sale of common shares of beneficial interest (“Shares”). There can be no assurance that the Fund will achieve its investment objective.

This Statement of Additional Information (this “Statement of Additional Information”) is not a prospectus and is authorized for distribution to prospective investors only if preceded or accompanied by the Prospectus. This Statement of Additional Information should be read in conjunction with the Prospectus, a copy of which may be obtained upon request and without charge by writing to the Fund at c/o Gemini Fund Services, LLC, 80 Arkay Drive, Hauppauge, NY 11788, by calling the Fund toll-free at 1-855-601-3841 or by accessing the Fund’s “Prospectus” page on Fund’s website at www.destracapital.com. The information on the Fund’s website is not incorporated by reference into this Statement of Additional Information and investors should not consider it a part of this Statement of Additional Information. The Prospectus, and other information about the Fund, is also available on the U.S. Securities and Exchange Commission’s (the “SEC”) website at <http://www.sec.gov>. The address of the SEC’s website is provided solely for the information of prospective investors and is not intended to be an active link.

Capitalized terms used but not defined in this Statement of Additional Information have the meanings ascribed to them in the Prospectus.

GENERAL INFORMATION AND HISTORY

The Destra Multi-Alternative Fund (previously, until November 30, 2018, the Multi-Strategy Growth & Income Fund and then until December 6, 2018, the Destra Alternative Access Fund) (the “Fund” or the “Trust”) is a continuously offered, non-diversified, closed-end management investment company that is operated as an interval fund. The Fund was organized as a Delaware statutory trust on June 3, 2011 and commenced operations on March 16, 2012. The Fund’s principal office is c/o Destra Capital Advisors, 444 West Lake Street, Suite 1700, Chicago IL 60606, and its telephone number is 1-855-601-3841. The investment objective and principal investment strategies of the Fund, as well as the principal risks associated with the Fund’s investment strategies, are set forth in the Prospectus. Certain additional investment information is set forth below.

The Fund offers four classes of shares: Class A shares, Class T shares, Class C shares and Class I shares. The Fund’s Board of Trustees (the “Board,” “Trustees” or “Board of Trustees”) may classify and reclassify the shares of the Fund into additional classes of shares at a future date.

INVESTMENT OBJECTIVE, POLICIES AND RISKS

The following disclosure supplements the disclosure set forth under the caption “Types of Investments and Related Risks” in the Prospectus and does not, by itself, present a complete or accurate explanation of the matters disclosed. Prospective investors must refer also to “Types of Investments and Related Risks” in the Prospectus for a complete presentation of the matters disclosed below.

Underlying Funds

The Fund invests in index-linked or actively managed exchange-traded funds (“ETFs”), mutual funds and closed-end funds (collectively “Underlying Funds”). The expenses of the Fund will generally be higher than the direct expenses of other fund shares. The Fund indirectly bears fees and expenses charged by the Underlying Funds in which the Fund invests in addition to the Fund’s direct fees and expenses. See “Summary of Fund Expenses” in the Prospectus for a further description of such fees and their impact on the expenses of the Fund. The Fund may also incur brokerage costs when it purchases shares of Underlying Funds. Furthermore, investments in Underlying Funds could affect the timing, amount and character of distributions to common shareholders and therefore may increase the amount of taxes payable by investors in the Fund. The value of an investment in the Fund will go up and down with the prices of Underlying Fund shares (and other securities) in which the Fund invests. Similarly, the value of the Fund’s investments in Underlying Funds will go up and down with the prices of the securities in which the Underlying Funds invest.

The Fund will incur higher and additional expenses when it invests in Underlying Funds. There is also the risk that the Fund may suffer losses due to the investment practices or operations of the Underlying Funds. To the extent that the Fund invests in one or more Underlying Funds that concentrate in a particular industry, the Fund would be vulnerable to factors affecting that industry and the concentrating Underlying Funds’ performance, and that of the Fund, may be more volatile than Underlying Funds that do not concentrate. In addition, one Underlying Fund may purchase a security that another Underlying Fund is selling.

The Fund’s performance will depend to an extent on the performance of the Underlying Funds (and other assets) in which the Fund invests. The use of leverage by Underlying Funds magnifies gains and losses on amounts invested and increases the risks associated with investing in Underlying Funds. Further, the Underlying Funds are not subject to the Fund’s investment policies and restrictions. The Fund generally receives information regarding the portfolio holdings of Underlying Funds only when that information is made available to the public. The Fund cannot dictate how the Underlying Funds invest their assets. The Underlying Funds may invest their assets in securities and other instruments, and may use investment techniques and strategies, that are not described in this Prospectus. Common shareholders bear two layers of fees and expenses with respect to the Fund’s investments in Underlying Funds because each of the Fund and the Underlying Fund will charge fees and incur separate expenses. See “Summary of Fund Expenses” for a further description of such fees and their impact on the expenses of the Fund. In addition, subject to applicable 1940 Act limitations, the Underlying Funds themselves may purchase securities issued by registered and unregistered funds (e.g., common stock, preferred stock, auction rate preferred stock), and those investments would be subject to the risks associated with Underlying Funds and unregistered funds (including a third layer of fees and expenses, i.e., the Underlying Fund will indirectly bear fees and expenses charged by the funds in which the Underlying Fund invests, in addition to the Underlying Fund’s own fees and expenses). An Underlying Fund with positive performance may indirectly receive a performance fee from the Fund, even when the Fund’s overall returns are negative. Additionally, the Fund’s investment in an Underlying Fund may result in the Fund’s receipt of cash in excess of the Underlying Fund’s earnings; if the Fund distributes these amounts, the distributions could constitute a return of capital to Fund shareholders for federal income

tax purposes. As a result of these factors, the use of the fund of funds structure by the Fund could therefore affect the amount, timing and character of distributions to shareholders.

The Fund invests in closed-end investment companies or funds. The shares of many closed-end funds, after their initial public offering, frequently trade at a price per share that is less than the net asset value per share, the difference representing the “market discount” of such shares. This market discount may be due in part to the investment objective of long-term appreciation, which is sought by many closed-end funds, as well as to the fact that the shares of closed-end funds are not redeemable by the holder upon demand to the issuer at the next determined net asset value, but rather, are subject to supply and demand in the secondary market. A relative lack of secondary market purchasers of closed-end fund shares also may contribute to such shares trading at a discount to their net asset value.

The Fund may invest in shares of closed-end funds that are trading at a discount to net asset value or at a premium to net asset value. There can be no assurance that the market discount on shares of any closed-end fund purchased by the Fund will ever decrease. In fact, it is possible that this market discount may increase and the Fund may suffer realized or unrealized capital losses due to further decline in the market price of the securities of such closed-end funds, thereby adversely affecting the net asset value of the Fund’s shares. Similarly, there can be no assurance that any shares of a closed-end fund purchased by the Fund at a premium will continue to trade at a premium or that the premium will not decrease subsequent to a purchase of such shares by the Fund.

Closed-end funds may issue senior securities (including preferred stock and debt obligations) for the purpose of leveraging the closed-end fund’s common shares in an attempt to enhance the current return to such closed-end fund’s common shareholders. The Fund’s investment in the common shares of closed-end funds that are financially leveraged may create an opportunity for greater total return on its investment, but at the same time may be expected to exhibit more volatility in market price and net asset value than an investment in shares of investment companies without a leveraged capital structure.

Index-based ETFs (and other index funds) in which the Fund may invest may not be able to replicate exactly the performance of the indices they track or benchmark due to transactions costs and other expenses of the ETFs. The Fund may also invest in actively managed ETFs that are subject to management risk as the ETF’s investment adviser will apply certain investment techniques and risk analyses in making investment decisions. There can be no guarantee that these will produce the desired results. The shares of closed-end funds frequently trade at a discount to their net asset value. There can be no assurance that the market discount on shares of any closed-end fund purchased by the Fund will ever decrease, and it is possible that the discount may increase. Underlying Funds may not be able to match or outperform their benchmarks.

The Fund’s investment in Underlying Funds may be limited by provisions of the 1940 Act, which generally limit the amount the Fund and its affiliates can invest in any one Underlying Fund to 3% of the Underlying Fund’s outstanding voting stock. As a result, the Fund may hold a smaller position in an Underlying Fund than if it were not subject to this restriction. In addition, to comply with provisions of the 1940 Act, in any matter upon which Underlying Fund shareholders are solicited to vote, the Adviser may be required to vote Underlying Fund shares in the same proportion as shares held by other shareholders of the Underlying Fund. However, pursuant to exemptive orders issued by the SEC to various ETF fund sponsors, the Fund is permitted to invest in such Underlying Funds in excess of the limits set forth in the 1940 Act subject to certain terms and conditions set forth in such exemptive orders.

Business Development Companies (BDCs)

The Fund may invest in BDCs as a principal part of its strategy. BDCs generally invest in less mature U.S. private companies or thinly traded U.S. public companies which involve greater risk than well-established publicly-traded companies. While BDCs are expected to generate income in the form of dividends, certain BDCs during certain periods of time may not generate such income. The Fund indirectly bears its proportionate share of any management fees and other operating expenses incurred by the BDCs and of any performance-based or incentive fees payable by the BDCs in which it invests, in addition to the expenses paid by the Fund. BDCs generally charge a management fee of up to 2.0% and up to a 20% incentive fee on income and/or capital gains. The use of leverage by BDCs magnifies gains and losses on amounts invested and increases the risks associated with investing in BDCs. A BDC may make investments with a larger amount of risk of volatility and loss of principal than other investment options and may also be highly speculative and aggressive.

Investments in BDCs may be subject to a high degree of risk. BDCs typically invest in and lend to small and medium-sized private and certain public companies that may not have access to public equity markets or capital raising. As a result, a BDC’s portfolio typically will include a substantial amount of securities purchased in private placements, and its portfolio may carry risks similar to those of a private equity or private debt fund. Securities that are not publicly registered may be difficult to

value and may be difficult to sell at a price representative of their intrinsic value. Small and medium-sized companies also may have fewer lines of business so that changes in any one line of business may have a greater impact on the value of their stock than is the case with a larger company. Some BDCs invest substantially, or even exclusively, in one sector or industry group and therefore carry risk of that particular sector or industry group. To the extent a BDC focuses its investments in a specific sector, the BDC will be susceptible to adverse conditions and economic or regulatory occurrences affecting the specific sector or industry group, which tends to increase volatility and result in higher risk. Investments in BDCs are subject to various other risks, including management's ability to meet the BDC's investment objective and to manage the BDC's portfolio when the underlying securities are redeemed or sold, during periods of market turmoil and as investors' perceptions regarding a BDC or its underlying investments change. BDC shares are not redeemable at the option of the BDC shareholder and, as with shares of other closed-end funds, they may trade in the secondary market at a discount to their NAV.

Master Limited Partnerships

The Fund may invest in master limited partnerships ("MLPs"). Investments in publicly traded MLPs, which are limited partnerships or limited liability companies taxable as partnerships, involve some risks that differ from an investment in the common stock of a corporation, including risks related to limited control and limited rights to vote on matters affecting MLPs, risks related to potential conflicts of interest between an MLP and the MLP's general partner, cash flow risks, dilution risks and risks related to the general partner's right to require unit-holders to sell their common units at an undesirable time or price. MLPs may derive income and gains from the exploration, development, mining or production, processing, refining, transportation (including pipelines transporting gas, oil, or products thereof), or the marketing of any mineral or natural resources. MLPs may be subject to legal and other restrictions on resale or will otherwise be less liquid than publicly traded securities. Certain MLP securities may trade in lower volumes due to their smaller capitalizations. Accordingly, those MLPs may be subject to more abrupt or erratic price movements and may lack sufficient market liquidity to enable the Fund to effect sales at an advantageous time or without a substantial drop in price. As a result, these investments may be difficult to dispose of at a fair price at the times when the Fund believes it is desirable to do so. MLPs are generally considered interest-rate sensitive investments. During periods of interest rate volatility, these investments may not provide attractive returns, which may adversely impact the overall performance of the Fund. The benefit the Fund will derive from its investments in MLPs will be largely dependent on the MLPs being treated as partnerships and not as corporations for federal income tax purposes. Therefore, treatment of an MLP as a corporation for federal income tax purposes would result in a reduction in the after-tax return to the Fund.

Fixed-Income Instruments

The Fund invests in fixed-income instruments, such as high-yield corporate debt securities or bonds. Corporate bonds and other fixed-income instruments are typically originated, negotiated and structured by a U.S. or foreign commercial bank, insurance company, finance company or other financial institution (the "Underwriter") for a group of investors ("Bond Investors"). In secured fixed-income instrument offerings, an institution, typically but not always an agent affiliated with the Underwriter, holds any collateral on behalf of the Bond Investors. The Fund may purchase fixed-income instruments either directly from the Underwriter or from a Bond Investor.

An issuer of fixed-income instruments must typically comply with the terms contained in a note purchase agreement or indenture between the issuer and the holders of the instruments (the "Bond Agreement"). These Bond Agreements generally detail the schedule of payments and also place certain restrictive financial and other covenants on the issuer, similar to those in loan agreements. A trustee typically administers and enforces the terms of the Bond Agreement and the fixed-income instrument on behalf of all holders of the instrument.

The rights of holders of high-yield corporate debt securities or bonds are generally subordinate to any existing senior or secured lenders in the issuer's capital structure and are structurally subordinated to the rights of any existing or future lenders to an issuer's subsidiaries that do not guarantee the high-yield corporate debt securities or bonds, and thus have a lower priority in payment than such lenders.

Risks of Foreign Investments

Investments in foreign issuers or securities principally traded outside the United States may involve special risks due to foreign economic, political and legal developments, including favorable or unfavorable changes in currency exchange rates, exchange control regulations (including currency blockage), expropriation, nationalization or confiscatory taxation of assets, and possible difficulty in obtaining and enforcing judgments against foreign entities. The Fund may be subject to foreign taxation on realized capital gains, dividends or interest payable on foreign securities, on transactions in those securities and on the repatriation of

proceeds generated from those securities. Transaction-based charges are generally calculated as a percentage of the transaction amount and are paid upon the sale or transfer of portfolio securities subject to such taxes. Any taxes or other charges paid or incurred by the Fund in respect of its foreign securities will reduce the Fund's yield.

In addition, the tax laws of some foreign jurisdictions in which the Fund may invest are unclear and interpretations of such laws can change over time. As a result, to comply with guidance related to the accounting and disclosure of uncertain tax positions under generally accepted accounting principles ("GAAP"), the Fund may be required to accrue for book purposes certain foreign taxes in respect of its foreign securities or other foreign investments that it may or may not ultimately pay. Such tax accruals will reduce the Fund's NAV at the time accrued, even though, in some cases, the Fund ultimately will not pay the related tax liabilities. Conversely, the Fund's NAV will be increased by any tax accruals that are ultimately reversed.

Issuers of foreign securities are subject to different, often less comprehensive, accounting, custody, reporting and disclosure requirements than U.S. issuers. The securities of some foreign governments, companies and securities markets are less liquid, and at times more volatile, than comparable U.S. securities and securities markets. Foreign brokerage commissions and related fees also are generally higher than those in the United States. Investments in foreign securities also may be affected by different custody and/or settlement practices or delayed settlements in some foreign markets. The laws of some foreign countries may limit the Fund's ability to invest in securities of certain issuers located in those countries. Foreign countries may have reporting requirements with respect to the ownership of securities, and those reporting requirements may be subject to interpretation or change without prior notice to investors. No assurance can be given that the Fund will satisfy applicable foreign reporting requirements at all times.

Short Sales

The Fund may engage in short sales of securities, particularly of corporate bonds and other fixed-income instruments. A short sale is a transaction in which the Fund sells a security it does not own as a means of attractive financing for purchasing other assets or in anticipation that the market price of that security will decline. The Fund may make short sales for financing, for risk management, to maintain portfolio flexibility or to enhance income or gain. The Fund does not intend to enter into short sales (other than short sales "against the box") if immediately after such sales the aggregate of the value of all collateral plus the amount in such segregated account exceeds 50% of the value of the Fund's net assets. This percentage may be varied by action of the Board of Trustees. A short sale is "against the box" to the extent the Fund contemporaneously owns, or has the right to obtain at no added cost, securities identical to those sold short.

When the Fund makes a short sale, it must borrow the security sold short and deliver it to the broker-dealer through which it made the short sale as collateral for its obligation to deliver the security upon conclusion of the sale. The Fund may have to pay a fee to borrow particular securities and is often obligated to pay over any payments received on such borrowed securities.

The Fund's obligation to replace the borrowed security may be secured by collateral deposited with the broker-dealer, usually cash, U.S. government securities or other liquid securities. The Fund may also be required to designate on its books and records similar collateral with its custodian to the extent, if any, necessary so that the aggregate collateral value is at all times at least equal to the current market value of the security sold short. Depending on arrangements made with the broker-dealer from which it borrowed the security regarding payment over of any payments received by the Fund on such security, the Fund may not receive any payments (including interest) on its collateral deposited with such broker-dealer.

Short selling involves a number of risks. If a security sold short increases in price, the Fund may have to cover its short position at a higher price than the short sale price, resulting in a loss. The Fund may, but is not expected to, have substantial short positions and may engage in short sales where it does not own or have the immediate right to acquire the security sold short, and as such must borrow those securities to make delivery to the buyer under the short sale transaction. The Fund may not be able to borrow a security that it needs to deliver or it may not be able to close out a short position at an acceptable price and may have to sell related long positions earlier than it had expected. Thus, the Fund may not be able to successfully implement any short sale strategy it employs due to limited availability of desired securities or for other reasons. Also, there is the risk that the counterparty to a short sale may fail to honor its contractual terms, causing a loss to the Fund.

Until the Fund replaces a security borrowed in connection with a short sale, it may be required to maintain a segregated account of cash or liquid assets with a broker or custodian to cover the Fund's short position.

Generally, securities held in a segregated account cannot be sold unless they are replaced with other liquid assets. The Fund's ability to access the pledged collateral may also be impaired in the event the broker becomes bankrupt, insolvent or otherwise fails to comply with the terms of the contract. In such instances, the Fund may not be able to substitute or sell the

pledged collateral and may experience significant delays in obtaining any recovery in a bankruptcy or other reorganization proceeding. Additionally, the Fund must maintain sufficient liquid assets, less any additional collateral pledged to the broker, marked-to-market daily, to cover the borrowed securities obligations. This may limit the Fund's investment flexibility, as well as its ability to meet other current obligations.

In times of unusual or adverse market, economic, regulatory or political conditions, the Fund may not be able, fully or partially, to implement its short selling strategy. Periods of unusual or adverse market, economic, regulatory or political conditions generally may exist for as long as six months and, in some cases, much longer.

Private and Hedge Funds

When the Fund invests in securities issued by private investment funds and hedge funds, it will bear its pro rata portion of the funds' expenses. These expenses are in addition to the direct expenses of the Fund's own operations, thereby increasing indirect costs and potentially reducing returns to Shareholders. A fund in which the Fund invests has its own investment risks, and those risks can affect the value of the private fund's or hedge fund's shares and therefore the value of the Fund's investments. There can be no assurance that the investment objective of a private fund or hedge fund will be achieved. A private investment fund or hedge fund may change its investment objective or policies without the Fund's approval, which could force the Fund to withdraw its investment from such fund at a time that is unfavorable. In addition, one private fund or hedge fund may buy the same securities that another investment fund sells. Therefore, the Fund would indirectly bear the costs of these trades without accomplishing any investment purpose. Hedge funds often engage in speculative investment practices such as leverage, short-selling, arbitrage, hedging, derivatives, and other strategies that may increase investment loss. Hedge funds can be highly illiquid and often charge high fees that can erode performance. Additionally, private funds and hedge funds may involve complex tax structures and delays in distributing tax information.

Real Estate Investment Trusts

Real estate investment trusts ("REITs") are typically publicly-traded corporations or trusts that invest in residential or commercial real estate. REITs generally can be divided into the following three types: (i) equity REITs, which invest the majority of their assets directly in real property and derive their income primarily from rents and capital gains or real estate appreciation; (ii) mortgage REITs, which invest the majority of their assets in real estate mortgage loans and derive their income primarily from interest payments; and (iii) hybrid REITs which combine the characteristics of equity REITs and mortgage REITs. Generally, dividends received by the Fund from REIT shares and distributed to the Fund's shareholders are not likely to constitute "qualified dividend income" eligible for the reduced tax rate applicable to qualified dividend income; therefore, the portion of the dividend income attributable to REIT shares held by the Fund that shareholders of the Fund receive will likely be treated as ordinary income and taxed at a higher rate than dividends eligible for the reduced tax rate applicable to qualified dividend income. The Fund will indirectly bear its proportionate share of any management and other expenses paid by REITs in which it invests in addition to expenses paid by the Fund.

Investment in REITs may subject the Fund to risks associated with the direct ownership of real estate, such as decreases in real estate values, overbuilding, increased competition and other risks related to local or general economic conditions, increases in operating costs and property taxes, changes in zoning laws, casualty or condemnation losses, possible environmental liabilities, regulatory limitations on rent and fluctuations in rental income. Equity REITs generally experience these risks directly through fee or leasehold interests, whereas mortgage REITs generally experience these risks indirectly through mortgage interests, unless the mortgage REIT forecloses on the underlying real estate. Changes in interest rates may also affect the value of the Fund's investment in REITs. For instance, during periods of declining interest rates, certain mortgage REITs may hold mortgages that the mortgagors elect to prepay, which prepayment may diminish the yield on securities issued by those REITs.

Certain REITs have relatively small market capitalizations, which may tend to increase the volatility of the market price of their securities. Furthermore, REITs are dependent upon specialized management skills and have limited diversification and are, therefore, subject to risks inherent in operating and financing a limited number of projects. REITs are also subject to heavy cash flow dependency, defaults by borrowers and the possibility of failing to qualify for tax-free pass-through of income under the Code and to maintain exemption from the registration requirements of the 1940 Act. By investing in REITs indirectly through the Fund, a shareholder will bear not only his or her proportionate share of the expenses of the Fund, but also, indirectly, similar expenses of the REITs. In addition, REITs depend generally on their ability to generate cash flow to make distributions to shareholders.

Restricted and Illiquid Securities

The Fund may not be able to readily dispose of illiquid securities at prices that approximate those at which the Fund could sell such securities if they were more widely traded and, as a result of such illiquidity, the Fund may have to sell other investments or engage in borrowing transactions if necessary to raise cash to meet its obligations.

The Fund may purchase certain securities eligible for resale to qualified institutional buyers as contemplated by Rule 144A under the Securities Act (such securities, “Rule 144A Securities”). Rule 144A provides an exemption from the registration requirements of the Securities Act for the resale of certain restricted securities to certain qualified institutional buyers. One effect of Rule 144A is that certain restricted securities may be considered liquid, though no assurance can be given that a liquid market for Rule 144A Securities will develop or be maintained. However, where a substantial market of qualified institutional buyers has developed for certain unregistered securities purchased by the Fund pursuant to Rule 144A under the Securities Act, the Fund intends to treat such securities as liquid securities in accordance with procedures approved by the Board. Because it is not possible to predict with assurance how the market for Rule 144A Securities will develop, the Board directs Destra Capital Advisors LLC (“Destra”) and Pinhook Capital, LLC (f/k/a LCM Investment Management, LLC) (“Pinhook”) (Pinhook together with Destra are referred to herein as the “Advisers”) to carefully monitor the Fund’s investments in such securities with particular regard to trading activity, availability of reliable price information and other relevant information. To the extent that, for a period of time, qualified institutional buyers cease purchasing restricted securities pursuant to Rule 144A, the Fund’s investing in such securities may have the effect of increasing the level of illiquidity in its investment portfolio during such period.

Equity Securities

In addition to common stock, the Fund may invest in other equity securities, including preferred stock, convertible securities, contingent convertible securities and depositary receipts.

Preferred Stock. Preferred stock has a preference over common stock in liquidation (and generally dividends as well) but is subordinated to the liabilities of the issuer in all respects. As a general rule, the market value of preferred stock with a fixed dividend rate and no conversion element varies inversely with interest rates and perceived credit risk, while the market price of convertible preferred stock generally also reflects some element of conversion value. Because preferred stock is junior to debt securities and other obligations of the issuer, deterioration in the credit quality of the issuer will cause greater changes in the value of the issuer’s preferred stock than in more senior credit securities with similar stated yield characteristics. Unlike interest payments on debt securities, preferred stock dividends are payable only if declared by the issuer’s board of directors. Preferred stock also may be subject to optional or mandatory redemption provisions.

Convertible Securities. Convertible securities are bonds, debentures, notes, preferred stocks or other securities that may be converted into or exchanged for a specified amount of common stock or other equity security of the same or a different issuer within a particular period of time at a specified price or formula. A convertible security entitles its holder to receive interest that is generally paid or accrued on debt or a dividend that is paid on preferred stock until the convertible security matures or is redeemed, converted or exchanged. Before conversion, convertible securities have characteristics similar to nonconvertible income securities in that they ordinarily provide a stable stream of income with generally higher yields than those of common stocks of the same or similar issuers, but lower yields than comparable nonconvertible securities. The investment value of a convertible security is influenced by changes in interest rates, with investment value declining as interest rates increase and increasing as interest rates decline. The credit standing of the issuer and other factors also may have an effect on the convertible security’s investment value. Convertible securities rank senior to common stock in a corporation’s capital structure but are usually subordinated to comparable nonconvertible securities. Convertible securities may be subject to redemption at the option of the issuer at a price established in the convertible security’s governing instrument.

Cash Equivalents and Short-Term Debt Securities

For temporary defensive purposes, the Fund may invest up to 100% of its assets in cash equivalents and short-term debt securities. Short-term debt securities are defined to include, without limitation, the following:

- (1) U.S. government securities, including bills, notes and bonds differing as to maturity and rates of interest that are either issued or guaranteed by the U.S. Treasury or by U.S. government agencies or instrumentalities. U.S. government securities include securities issued by: (a) the Federal Housing Administration, Farmers Home Administration, Export-Import Bank of the United States, Small Business Administration and Government National Mortgage Association, the securities of which are supported by the full faith and credit of the United States; (b) the Federal

Home Loan Banks, Federal Intermediate Credit Banks and Tennessee Valley Authority, the securities of which are supported by the right of the agency to borrow from the U.S. Treasury; (c) the Federal National Mortgage Association, the securities of which are supported by the discretionary authority of the U.S. government to purchase certain obligations of the agency or instrumentality; and (d) the Student Loan Marketing Association, the securities of which are supported only by its credit. While the U.S. government provides financial support to such U.S. government-sponsored agencies or instrumentalities, no assurance can be given that it always will do so since it is not so obligated by law. The U.S. government, its agencies and instrumentalities do not guarantee the market value of their securities. Consequently, the value of such securities may fluctuate. The economic crisis in the United States during 2008 and 2009 negatively impacted government-sponsored entities. As the real estate market deteriorated through declining home prices and increasing foreclosure, government-sponsored entities, which back the majority of U.S. mortgages have experienced extreme volatility, and in some cases, a lack of liquidity. The Advisors will monitor developments and seek to manage the Fund's portfolio in a manner consistent with achieving the Fund's investment objectives, but there can be no assurance that it will be successful in doing so.

- (2) Certificates of deposit issued against funds deposited in a bank or a savings and loan association. Such certificates are for a definite period of time, earn a specified rate of return and are normally negotiable. The issuer of a certificate of deposit agrees to pay the amount deposited plus interest to the bearer of the certificate on the date specified thereon. Certificates of deposit purchased by the Fund may not be fully insured by the Federal Deposit Insurance Corporation.
- (3) Repurchase agreements, which involve purchases of debt securities. At the time the Fund purchases securities pursuant to a repurchase agreement, it simultaneously agrees to resell and redeliver such securities to the seller, who also simultaneously agrees to buy back the securities at a fixed price and time. This assures a predetermined yield for the Fund during its holding period, since the resale price is always greater than the purchase price and reflects an agreed-upon market rate. Such actions afford an opportunity for the Fund to invest temporarily available cash. The Fund may enter into repurchase agreements only with respect to obligations of the U.S. government, its agencies or instrumentalities; certificates of deposit; or bankers' acceptances in which the Fund may invest. Repurchase agreements may be considered loans to the seller, collateralized by the underlying securities. The risk to the Fund is limited to the ability of the seller to pay the agreed-upon sum on the repurchase date; in the event of default, the repurchase agreement provides that the Fund is entitled to sell the underlying collateral. If the value of the collateral declines after the agreement is entered into, and if the seller defaults under a repurchase agreement when the value of the underlying collateral is less than the repurchase price, the Fund could incur a loss of both principal and interest. The Advisors will monitor the value of the collateral at the time the action is entered into and at all times during the term of the repurchase agreement. The Advisors will do so in an effort to determine that the value of the collateral always equals or exceeds the agreed-upon repurchase price to be paid to the Fund. If the seller were to be subject to a federal bankruptcy proceeding, the ability of the Fund to liquidate the collateral could be delayed or impaired because of certain provisions of the bankruptcy laws.
- (4) Commercial paper, which consists of short-term unsecured promissory notes, including variable rate master demand notes issued by corporations to finance their current operations. Master demand notes are direct lending arrangements between the Fund and a corporation. There is no secondary market for such notes. However, they are redeemable by the Fund at any time. The Advisors will consider the financial condition of the corporation (*e.g.*, earning power, cash flow and other liquidity ratios) and will continuously monitor the corporation's ability to meet all of its financial obligations, because the Fund's liquidity might be impaired if the corporation were unable to pay principal and interest on demand. Investments in commercial paper will be limited to commercial paper rated in the highest categories by a major rating agency and which mature within one year of the date of purchase or carry a variable or floating rate of interest.

When-Issued and Forward Commitment Securities

The Fund may purchase securities on a "when-issued" basis and may purchase or sell securities on a "forward commitment" basis to acquire the security or to hedge against anticipated changes in interest rates and prices. When such transactions are negotiated, the price, which is generally expressed in yield terms, is fixed at the time the commitment is made, but delivery and payment for the securities take place at a later date. When-issued securities and forward commitments may be sold prior to the settlement date, but the Fund will enter into when-issued and forward commitments only with the intention of actually receiving or delivering the securities, as the case may be. If the Fund disposes of the right to acquire a when-issued security prior to its acquisition or disposes of its right to deliver or receive against a forward commitment, it might incur a gain or loss. At the time

the Fund enters into a transaction on a when-issued or forward commitment basis, it will designate on its books and records cash or liquid credit securities equal to at least the value of the when-issued or forward commitment securities, unless future SEC staff guidance permits designation or segregation to a lesser extent. The value of these assets will be monitored daily to ensure that their marked-to-market value will at all times equal or exceed the corresponding obligations of the Fund. There is always a risk that the securities may not be delivered and that the Fund may incur a loss. Settlements in the ordinary course, which may take substantially more than five business days, are not treated by the Fund as when-issued or forward commitment transactions and accordingly are not subject to the foregoing restrictions.

Securities purchased on a forward commitment or when-issued basis are subject to changes in value (generally changing in the same way, *i.e.*, appreciating when interest rates decline and depreciating when interest rates rise) based upon the public's perception of the creditworthiness of the issuer and changes, actual or anticipated, in the level of interest rates. Securities purchased on a forward commitment or when-issued basis may expose the Fund to risks because they may experience such fluctuations prior to their actual delivery. Purchasing securities on a when-issued basis can involve the additional risks that the yield available in the market when the delivery takes place actually may be higher than that obtained in the transaction itself. Purchasing securities on a forward commitment or when-issued basis when the Fund is fully invested may result in greater potential fluctuation in the Fund's NAV.

The risks and effect of settlements in the ordinary course on the Fund's NAV are not the same as the risks and effect of when-issued and forward commitment securities.

The purchase price of when-issued and forward commitment securities are expressed in yield terms, which reference a floating rate of interest, and is therefore subject to fluctuations of the security's value in the market from the date of the Fund's commitment (the "Commitment Date") to the date of the actual delivery and payment for such securities (the "Settlement Date"). There is a risk that, on the Settlement Date, the Fund's payment of the final purchase price, which is calculated on the yield negotiated on the Commitment Date, will be higher than the market's valuation of the security on the Settlement Date. This same risk is also borne if the Fund disposes of its right to acquire a when-issued security, or its right to deliver or receive, a forward commitment security, and there is a downward market movement in the value of the security from the Commitment Date to the Settlement Date. In some instances, no income accrues to the Fund during the period from the Commitment Date to the Settlement Date. On the other hand, the Fund may incur a gain if the Fund invests in when-issued and forward commitment securities and correctly anticipates the rise in interest rates and prices in the market.

Portfolio Turnover

Portfolio turnover measures the percentage of the Fund's total portfolio market value that was purchased or sold during the period. The Fund's turnover rate provides an indication of how transaction costs (which are not included in the Fund's expenses) may affect the Fund's performance. Also, funds with a high turnover may be more likely to distribute capital gains that may be taxable to shareholders.

For the fiscal year ended February 28, 2019, the Fund's portfolio turnover rate was 19%. For the fiscal year ended February 28, 2018, the Fund's portfolio turnover rate was 27%.

INVESTMENT RESTRICTIONS

The Fund may not:

- (1) Borrow money, except to the extent permitted by the Investment Company Act of 1940, as amended (the “1940 Act”) (which currently limits borrowing to no more than 33-1/3% of the value of the Fund’s total assets, including the value of the assets purchased with the proceeds of its indebtedness, if any). The Fund may borrow for investment purposes, for temporary liquidity, or to finance repurchases of its shares.
- (2) Issue senior securities, except to the extent permitted by Section 18 of the 1940 Act (which currently limits the issuance of a class of senior securities that is indebtedness to no more than 33-1/3% of the value of the Fund’s total assets or, if the class of senior security is stock, to no more than 50% of the value of the Fund’s total assets).
- (3) Underwrite securities of other issuers, except insofar as the Fund may be deemed an underwriter under the Securities Act of 1933, as amended (the “Securities Act”) in connection with the disposition of its portfolio securities. The Fund may invest in restricted securities (those that must be registered under the Securities Act before they may be offered or sold to the public) to the extent permitted by the 1940 Act.
- (4) Invest 25% or more of the market value of its net assets in the securities of companies or entities engaged in any one industry, except the REIT industry. This limitation does not apply to investment in the securities of the U.S. Government, its agencies or instrumentalities. Under normal circumstances, the Fund invests over 25% of its net assets in the securities of companies in the REIT industry.
- (5) Purchase or sell real estate or interests in real estate. This limitation is not applicable to investments in securities that are secured by or represent interests in real estate. This limitation does not preclude the Fund from investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including real estate investment trusts).
- (6) Purchase or sell commodities, commodity contracts, except commodity futures contracts, unless acquired as a result of ownership of securities or other investments, except that the Fund may invest in securities or other instruments backed by or linked to commodities, and invest in companies that are engaged in a commodities business or have a significant portion of their assets in commodities, and may invest in commodity pools and other entities that purchase and sell commodities and commodity contracts.
- (7) Make loans to others, except (a) through the purchase of debt securities in accordance with its investment objectives and policies, (b) to the extent the entry into a repurchase agreement is deemed to be a loan, and (c) by loaning portfolio securities up to one-third of total Fund assets.

In addition, the Fund has adopted a fundamental policy that:

- (8) The Fund will make quarterly repurchase offers for no less than for 5% of the Fund’s shares outstanding at net asset value (“NAV”) less any repurchase fee, unless suspended or postponed in accordance with regulatory requirements, and each repurchase pricing shall occur no later than the 14th day after the Repurchase Request Deadline, or the next business day if the 14th is not a business.

The Fund has adopted a fundamental policy that it will make quarterly repurchase offers pursuant to Rule 23c-3 of the 1940 Act, as such rule may be amended from time to time, for no less than 5% nor more than 25% of the Shares outstanding at NAV, less any repurchase fee, unless suspended or postponed in accordance with regulatory requirements, and each repurchase pricing shall occur no later than the 14th day after the Repurchase Request Deadline (as defined in the Prospectus), or the next business day if the 14th day is not a business day. Holders of the Fund’s Shares (“Shareholders”) will be notified in writing about each quarterly repurchase offer, how they may request that the Fund repurchase their Shares and the Repurchase Request Deadline, which is the date the repurchase offer ends.

The fundamental investment limitations set forth above restrict the ability of the Fund to engage in certain practices and purchase securities and other instruments other than as permitted by, or consistent with, applicable law, including the 1940 Act. Relevant limitations of the 1940 Act as they presently exist are described below. These limitations are based either on the 1940 Act itself, the rules or regulations thereunder or applicable orders of the SEC. In addition, interpretations and guidance provided by the SEC staff may be taken into account to determine if a certain practice or the purchase of securities or other instruments is permitted by the 1940 Act, the rules or regulations thereunder or applicable orders of the SEC. As a result, the foregoing fundamental investment policies may be interpreted differently over time as the statutes, rules, regulations or orders (or, if applicable, interpretations) that relate to the meaning and effect of these policies change, and no vote of Shareholders will be required or sought.

Notations Regarding Fundamental Investment Restrictions

The following notations are not considered to be part of the Fund's fundamental investment policies described above and are subject to change without Shareholder approval.

With respect to the fundamental policy relating to borrowing money set forth in (1) above, the 1940 Act permits the Fund to borrow money in amounts of up to one-third of the Fund's total assets from banks for any purpose, and to borrow up to 5% of the Fund's total assets from banks or other lenders for temporary purposes. The Fund's total assets include the amounts being borrowed. To limit the risks attendant to borrowing, the 1940 Act requires the Fund to maintain at all times an "asset coverage" of at least 300% of the amount of its borrowings. Asset coverage means the ratio that the value of the Fund's total assets (including amounts borrowed), minus liabilities other than borrowings, bears to the aggregate amount of all borrowings. Borrowing money to increase portfolio holdings is known as "leveraging." Certain trading practices and investments, such as reverse repurchase agreements, may be considered to be borrowings or involve leverage and thus are subject to the 1940 Act restrictions. In accordance with SEC staff guidance and interpretations, when the Fund engages in such transactions, the Fund, instead of maintaining asset coverage of at least 300%, may segregate or earmark liquid assets, or enter into an offsetting position, in an amount at least equal to the Fund's exposure, on a mark-to-market basis, to the transaction (as calculated pursuant to requirements of the SEC). The policy in (1) above will be interpreted to permit the Fund to engage in trading practices and investments that may be considered to be borrowing or to involve leverage to the extent permitted by the 1940 Act and to permit the Fund to segregate or earmark liquid assets or enter into offsetting positions in accordance with SEC staff guidance and interpretations. Short-term credits necessary for the settlement of securities transactions and arrangements with respect to securities lending will not be considered to be borrowings under the policy. Practices and investments that may involve leverage but are not considered to be borrowings are not subject to the policy.

With respect to the fundamental policy relating to making loans set forth in (7) above, the 1940 Act does not prohibit the Fund from making loans (including lending its securities); however, SEC staff interpretations currently prohibit funds from lending more than one-third of their total assets (including lending its securities), except through the purchase of debt obligations or the use of repurchase agreements. In addition, collateral arrangements with respect to options, forward currency and futures transactions and other derivative instruments (as applicable), as well as delays in the settlement of securities transactions, will not be considered loans.

With respect to the fundamental policy relating to underwriting set forth in (3) above, the 1940 Act does not prohibit the Fund from engaging in the underwriting business or from underwriting the securities of other issuers; in fact, in the case of diversified funds, the 1940 Act permits the Fund to have underwriting commitments of up to 25% of its assets under certain circumstances. Those circumstances currently are that the amount of the Fund's underwriting commitments, when added to the value of the Fund's investments in issuers where the Fund owns more than 10% of the outstanding voting securities of those issuers, cannot exceed the 25% cap. A fund engaging in transactions involving the acquisition or disposition of portfolio securities may be considered to be an underwriter under the Securities Act. Although it is not believed that the application of the Securities Act provisions described above would cause the Fund to be engaged in the business of underwriting, the policy in (3) above will be interpreted not to prevent the Fund from engaging in transactions involving the acquisition or disposition of portfolio securities, regardless of whether the Fund may be considered to be an underwriter under the Securities Act or is otherwise engaged in the underwriting business to the extent permitted by applicable law.

Altering Fundamental Investment Restrictions

The restrictions listed above (but not the notations with respect thereto) are fundamental policies of the Fund. The Fund may not alter these fundamental policies without the approval of the holders of a majority of the outstanding Shares. For purposes of the foregoing, "a majority of the outstanding Shares" means (i) 67% or more of such Shares present at a meeting, if the Shareholders of more than 50% of such Shares are present or represented by proxy, or (ii) more than 50% of such Shares, whichever is less.

Other than the fundamental policies listed above, the Fund's investment policies are non-fundamental policies and may be changed by the Board without prior Shareholder approval.

Unless otherwise indicated, all limitations applicable to the investments (as stated above and elsewhere in this Statement of Additional Information and the Prospectus) of the Fund apply only at the time a transaction is entered into, and subsequent changes in value, ratings downgrades or changes in credit quality will not result in the Fund being required to dispose of any portfolio security. Except as otherwise noted, all percentage limitations set forth above apply immediately after a purchase and any subsequent change in any applicable percentage resulting from market fluctuations does not require any action. With respect to the limitations on the issuance of senior securities and in the case of borrowings, the percentage limitations apply at the time of issuance and on an ongoing basis.

MANAGEMENT OF THE FUND

Pursuant to the Fund's Agreement and Declaration of Trust ("Declaration of Trust") and bylaws, the Fund's business and affairs are managed under the direction of the Board, which has overall responsibility for monitoring and overseeing the Fund's management and operations. The officers of the Fund conduct and supervise the Fund's daily business operations.

Board Trustees and Executive Officers

Board Leadership Structure

The Board consists of 4 members, three of whom are considered independent and are not "interested persons" (as defined in the 1940 Act) of the Fund, Destra or Pinhook (collectively, "Independent Trustees"). Among other things, the Board sets broad policies for the Fund and appoints the Fund's officers. The role of the Board, and of any individual Trustee, is one of oversight and not of management of the Fund's day-to-day affairs. Each Trustee will serve until his or her successor is duly elected and qualified. The Trustees are subject to removal or replacement in accordance with Delaware law and the Fund's Declaration of Trust. The Trustees serving on the Board were elected by the organizational Shareholders of the Fund.

Nicholas Dalmaso serves as Chairman of the Board and is not an Independent Trustee by virtue of his relationship with Destra. The Board feels that Mr. Dalmaso is the Trustee with the most knowledge of the Fund's business strategy and regulatory parameters and is best situated to serve as Chairman of the Board. The Board does not currently have a lead independent trustee, and each Independent Trustee plays an active role on the Board. The Independent Trustees are expected to meet separately in executive session as often as necessary to exercise their oversight responsibilities. The Board believes that its leadership structure is the optimal structure for the Fund at this time given the Fund's current size and complexity. The Board, which reviews its leadership structure periodically, further believes that its structure is presently appropriate to enable it to exercise its oversight of the Fund.

Board Role in Risk Oversight

Through its direct oversight role, and indirectly through its committees, the Board performs a risk oversight function for the Fund consisting of, among other things, the following activities: (i) at regular and special Board meetings, and on an ad hoc basis as needed, receiving and reviewing reports related to the Fund's performance and operations; (ii) reviewing and approving, as applicable, the Fund's compliance policies and procedures; (iii) meeting with members of the Fund's portfolio management team to review investment strategies, techniques and the processes used to manage related risks; (iv) meeting with, or reviewing reports prepared by, the representatives of key service providers, including Destra and Pinhook and the Fund's administrator, distributor, transfer agent, custodian and independent registered public accounting firm, to review and discuss the Fund's activities and to provide direction with respect thereto; and (v) engaging the services of the Fund's chief compliance officer to test the compliance procedures of the Fund and its service providers. However, not all risks that may affect the Fund can be identified or processes and controls developed to eliminate or mitigate their occurrence or effects, and some risks are beyond the control of the Fund and its service providers.

Trustees

Information regarding the members of the Board is set forth below. The address for each Trustee is c/o Destra Multi-Alternative Fund, 444 West Lake Street, Suite 1700, Chicago, Illinois 60606. As set forth in the Fund’s Declaration of Trust, a Trustee’s term of office shall continue until his or her death, resignation or removal.

<u>Name and Birth Year</u>	<u>Trustee Since</u>	<u>Principal Occupation(s) During the past 5 years</u>	<u>Number of Registered Investment Companies in Fund Complex Overseen by Trustee¹</u>	<u>Other Directorships held by the Trustee during the past five years</u>
<i>Independent Trustees</i>				
John S. Emrich, CFA Birth year: 1967	November 2018	Private Investor, January 2011 to present; Co-Founder and Portfolio Manager, Ironworks Capital Management (an investment adviser) (April 2005 to December 2010); Member (June 2012 to present) and Manager (2013 to 2015), Iroquois Valley Farms LLC (a farmland finance company).	4	Meridian Fund, Inc. (4 portfolios)
Michael S. Erickson Birth year: 1952	November 2018	Private Investor (August 2007 to present); Chief Operating Officer and Chief Financial Officer, Erickson Holding Corp. (a passive real estate holding company) (2003 to present); Chief Operating Officer and Chief Financial Officer, McGee Island LLC (a real estate management company) (2015 to present).	4	Meridian Fund, Inc. (registered investment company) (4 portfolios)
Jeffery S. Murphy Birth year: 1966	November 2018	Retired (2014 to present); Executive Manager, Affiliated Managers Group, Inc. (an asset manager) (1995 to 2014).	4	Aston Funds, 2010 to 2014
<i>Interested Trustee</i>				
Nicholas Dalmaso, ² Chairman Birth year: 1965	November 2018	General Counsel and Chief Compliance Officer of M1 Holdings LLC (2015 to present); General Counsel and Chief Compliance Officer of M1 Finance LLC (an investment adviser) (2015 to present); General Counsel and Chief Compliance Officer of M1 Advisory Services LLC (an investment adviser) (2015 to present); Co-Chairman, General Counsel and Chief Operating Officer of Destra Capital Management LLC (2010 to 2014); President, Chief Operating Officer and General Counsel, Destra Capital Advisors LLC (2010 to 2014); President, Chief Operating Officer and General Counsel, Destra Capital Investments LLC (2010 to 2014); Chief Executive Officer, Destra Investment Trust and Destra Investment Trust II (2010 to 2014).	4	None

1 The Fund Complex consists of the Fund, the Destra International & Event-Driven Credit Fund, the Destra Wolverine Dynamic Asset Fund and the Destra Flaherty & Crumrine Preferred and Income Fund, both a series of the Destra Investment Trust, and the Destra Exchange-Traded Fund Trust, of which there is currently no active series.

2 Mr. Dalmaso is an “interested person” of the Fund, as defined in the 1940 Act, by reason of his position with Destra.

Independent Trustees

John S. Emrich. Mr. Emrich has significant experience in the investment management and financial services industry. Mr. Emrich served as a financial analyst or portfolio manager for over 14 years for various investment advisory firms and currently serves as a director of Meridian Fund, Inc. Prior to such positions he also performed business valuations and appraisal analyses at KPMG Peat Marwick, an accounting firm.

Michael S. Erickson. Mr. Erickson has significant leadership and financial management experience, previously serving as Chairman of the Board and Chief Financial Officer of AeroAstro for nearly ten years, and as a Director on the Board of Directors of Decimal, Inc., an online IRA administration company. Mr. Erickson also currently serves as a director of Meridian Fund, Inc., an open-end registered investment company. He has served as a certified public accountant for Coopers & Lybrand, an accounting firm, and has served as Chief Operating Officer and Chief Financial Officer for several companies. Mr. Erickson holds a Master of Business Administration degree from Stanford Graduate School of Business.

Jeffery S. Murphy. Mr. Murphy has significant experience in the investment management and financial services industry. Mr. Murphy held numerous positions during his 20-year tenure at Affiliated Managers Group, Inc., including in operations, finance and capital development areas. Mr. Murphy also held positions on the executive board and mutual fund board of trustees for several Affiliated Managers Group, Inc. affiliates.

Interested Trustee

Nicholas Dalmaso. Mr. Dalmaso has extensive experience in the mutual fund industry. He has experience as General Counsel and Chief Administrative Officer at Claymore Securities, Inc. His work experience in the mutual fund industry and educational background have prepared him to be a trustee.

Executive Officers

The following persons serve as the Fund's executive officers in the following capacities:

<u>Name and Birth Year</u>	<u>Position(s) Held with the Fund</u>	<u>Principal Occupation(s) During the past 5 years</u>
Robert Watson Birth year: 1965	President since November 2018	Senior Managing Director and Investment Product Strategist, Destra Capital Investments LLC (2011 to present); Global Product & Strategic Relationship Director, Aviva Investors (2009 to 2011).
Derek Mullins Birth year: 1973	Chief Financial Officer and Treasurer since November 2018	Managing Partner and Co-Founder, PINE Advisor Solutions (2018 to present); Director of Operations, ArrowMark Partners LLC (2009 to 2018); Chief Financial Officer (Principal Financial Officer) and Treasurer, Meridian Fund, Inc. (2013 to 2018).
Jane Hong Shissler Birth year: 1972	Chief Compliance Officer and Secretary since November 2018	General Counsel, Destra Capital Management LLC, Destra Capital Investments LLC and Destra Capital Management LLC; Partner (2012 to 2015) and Associate (2005 to 2012), Chapman and Cutler LLP.

The address for each executive officer is c/o Destra Multi-Alternative Fund, 444 West Lake Street, Suite 1700, Chicago, Illinois 60606.

Compensation of Trustees

Trustees who do not also serve in an executive officer capacity for the Fund, the Adviser or the Sub-Adviser are entitled to receive from the Fund an annual cash retainer.

Effective April 1, 2019, in consideration of the services rendered by the Independent Trustees, the Destra Fund Complex will pay each Independent Trustee a retainer of \$39,000 per year, and the Chairman of the Board a retainer of \$46,000 per year for his services in this capacity. The Destra Fund Complex consists of the Fund, the Destra International & Event-Driven Credit Fund, Destra Wolverine Dynamic Asset Fund and the Destra Flaherty & Crumrine Preferred and Income Fund, both a series of the Destra Investment Trust, and the Destra Exchange-Traded Fund Trust, of which there is currently no active series. Each fund in the Destra Fund Complex pays a portion of the retainer received by each Trustee, which is allocated annually across the Destra Fund Complex based on each fund's respective net assets as of December 31 of the preceding year.

Prior to April 1, 2019, the Fund paid each Independent Trustee a retainer of \$18,000 per year, and the Chairman of the Board a retainer of \$18,000 per year for his services in this capacity.

The Fund also reimburses each of the Trustees for all reasonable and authorized business expenses in accordance with the Fund's policies as in effect from time to time, including reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each in-person Board meeting and each committee meeting not held concurrently with a Board meeting.

The table below details the amount of compensation the Trustees received from the Fund and Fund Complex during the fiscal period ended February 28, 2019. The Fund does not have a bonus, profit sharing, pension or retirement plan.

Name of Trustee	Aggregate Compensation From Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation From Fund Complex*
John S. Emrich	\$ 5,820	None	None	\$ 26,380
Michael S. Erickson	\$ 5,820	None	None	\$ 26,380
Jeffrey S. Murphy	\$ 5,820	None	None	\$ 26,380
Nicholas Dalmaso	\$ 5,820	None	None	\$ 34,067
Mark J. Riedy**	\$ 39,250	None	None	\$ 39,250
Ira J. Miller**	\$ 36,750	None	None	\$ 36,750
John D. Frager**	\$ 28,250	None	None	\$ 28,250
Darlene DeRemer**	\$ 38,750	None	None	\$ 38,750
Raymond J. Lucia, Jr.**	None	None	None	None

* The term "Destra Fund Complex" refers to the Fund, the Destra International & Event-Driven Credit Fund, Destra Wolverine Dynamic Asset Fund and the Destra Flaherty & Crumrine Preferred and Income Fund, both a series of the Destra Investment Trust, and the Destra Exchange-Traded Fund Trust, of which there is currently no active series.

** Messrs. Riedy, Miller, Frager, Lucia and Ms. DeRemer each resigned as Trustees of the Fund effective on November 30, 2018, which was also prior to the Fund's inclusion in the Destra Fund Complex.

Board Committees

In addition to serving on the Board, Trustees may also serve on one or more of the following committees which have been established by the Board to handle certain designated responsibilities. The Board has designated a chairman of each committee. Subject to applicable law, the Board may establish additional committees, change the membership of any committee, fill all vacancies and designate alternate members to replace any absent or disqualified member of any committee, or to dissolve any committee as it deems necessary and in the Fund's best interest. During the fiscal year ended February 28, 2019, the Board held six meetings.

Audit Committee

The Board has formed an Audit Committee that is responsible for overseeing the Fund's accounting and financial reporting policies and practices, its internal controls, and, as appropriate, the internal controls of certain service providers; overseeing the quality and objectivity of the Fund's financial statements and the independent audit of those financial statements; and

acting as a liaison between the Fund's independent auditors and the full Board. In performing its responsibilities, the Audit Committee will select and recommend annually to the entire Board a firm of independent certified public accountants to audit the books and records of the Fund for the ensuing year, and will review with the firm the scope and results of each audit. The Audit Committee currently consists of each of the Fund's Independent Trustees. The Board has determined that Mr. Murphy is an "audit committee financial expert" as defined under SEC rules. During the fiscal year ended February 28, 2019, the Audit Committee held two meetings.

Nominating and Governance Committee

The Board has formed a Nominating and Governance Committee that is responsible for selecting and nominating persons to serve as Trustees of the Fund. The Nominating and Governance Committee is responsible for both nominating candidates to be appointed by the Board to fill vacancies and for nominating candidates to be presented to Shareholders for election. In performing its responsibilities, the Nominating and Governance Committee will consider candidates recommended by management of the Fund and by Shareholders and evaluate them both in a similar manner, as long as the recommendation submitted by a Shareholder includes at a minimum: the name, address and telephone number of the recommending Shareholder and information concerning the Shareholder's interests in the Fund in sufficient detail to establish that the Shareholder held Shares on the relevant record date; and the name, address and telephone number of the recommended nominee and information concerning the recommended nominee's education, professional experience, and other information that might assist the Nominating and Governance Committee in evaluating the recommended nominee's qualifications to serve as a trustee. The Nominating and Governance Committee may solicit candidates to serve as trustees from any source it deems appropriate. With the Board's prior approval, the Nominating and Governance Committee may employ and compensate counsel, consultants or advisers to assist it in discharging its responsibilities. The Nominating and Governance Committee currently consists of each of the Fund's Independent Trustees. During the fiscal year ended February 28, 2019, the Nominating and Governance Committee held one meeting.

Qualified Legal Compliance Committee

The Board has formed a Qualified Legal Compliance Committee that is responsible for (i) receiving reports of certain material breaches or violations of certain U.S. laws or regulations or fiduciary duties, (ii) reporting evidence of such breaches or violations to the Fund's Chief Executive Officer ("CEO"), (iii) determining whether an investigation of such breaches or violations is required, (iv) if the Qualified Legal Compliance Committee determines an investigation is required, initiating such investigation, (v) at the conclusion of such investigation, recommending that the Fund implement an appropriate response to evidence of a breach or violation, and (vi) informing the CEO and the Board of results of the investigation. The Qualified Legal Compliance Committee currently consists of the members of the Audit Committee. The Qualified Legal Compliance Committee did not hold any meetings during the fiscal year ended February 28, 2019.

Trustee Beneficial Ownership of Shares

As of December 31, 2018, none of the Trustees owned Shares of the Fund.

Shareholder Communication

Shareholders may send communications to the Board. Shareholders should send communications intended for the Board by addressing the communication directly to the Board (or individual Trustee(s)) and/or otherwise clearly indicating in the salutation that the communication is for the Board (or individual Trustee(s)) and by sending the communication to the Fund's address for the Trustee(s) at c/o Destra Multi-Alternative Fund, 444 West Lake Street, Suite 1700, Chicago, Illinois 60606. Other Shareholder communications received by the Fund not directly addressed and sent to the Board will be reviewed and generally responded to by management, and will be forwarded to the Board only at management's discretion based on the matters contained therein.

Codes of Ethics

The Fund, Destra, and Pinhook have each adopted a code of ethics pursuant to Rule 17j-1 under the 1940 Act that establishes procedures for personal investments and restrict certain personal securities transactions. Personnel subject to these codes may invest in securities for their personal investment accounts so long as such investments are made in accordance with the applicable code's requirements.

The Adviser

Destra Capital Advisors LLC, located at 444 West Lake Street, Suite 1700, Chicago, IL, serves as the Fund's investment adviser, with responsibility for the overall management of the Fund. The Adviser is registered with the SEC as an investment adviser under the Investment Advisers Act of 1940, as amended. The Adviser was established in August 2008 and is a subsidiary of Destra Capital Management LLC, a sponsor of investment funds. The Adviser is a Delaware limited liability company and is a wholly-owned subsidiary of Destra Capital Management LLC, a holding company, which is in turned controlled by Continuum Funds Holdings, LLC. Continuum is an affiliate of Continuum Capital Managers LLC, a multi-boutique asset manager that makes equity investments in investment advisers. Continuum Capital Managers LLC was founded in 2012 by Douglas Grip and Steve Vanourny. For more information regarding Destra, see "The Adviser" in the Prospectus. For more information on the services provided by Destra to the Fund, see "Management of the Fund" in the Prospectus.

The Fund's Investment Management Agreement (the "Investment Management Agreement") was approved by the Board and the Fund's Shareholders and became effective on November 30, 2018, and continues in effect for a period of two years from its effective date. Thereafter, the Investment Management Agreement will continue in effect from year to year provided such continuance is specifically approved at least annually by (i) the vote of a majority of the outstanding voting securities of the Fund or a majority of the Board, and (ii) the vote of a majority of the Independent Trustees of the Fund, cast in person at a meeting called for the purpose of voting on such approval. A discussion regarding the basis for the Board's approval of the Investment Management Agreement, or any other investment advisory contracts, will be available in the Fund's next annual report to Shareholders.

Under the Investment Management Agreement, Destra is entitled to a Management Fee, calculated and payable monthly in arrears, at the annual rate of 1.35% of the average daily net assets during such period (the "Management Fee"). The Management Fee may or may not be taken in whole or in part at the discretion of Destra. All or any part of the Management Fee not taken as to any quarter will be deferred without interest and may be taken in any such other quarter as Destra may determine, provided that such deferred Management Fee will only be recoverable if not more than three years following the time such deferral was made. The Management Fee for any partial quarter will be appropriately prorated.

The Investment Management Agreement may be terminated at any time, without the payment of any penalty, upon 60 days' written notice by Destra or, if the Board or the holders of a majority of the Fund's outstanding voting securities determine that the Investment Management Agreement with Destra should be terminated, by the Fund. The Investment Management Agreement will automatically terminate in the event of its assignment (as such term is defined for purposes of Section 15(a)(4) of the 1940 Act).

The Adviser was engaged by the Fund as investment adviser effective November 30, 2018. Prior to that time, Pinhook Capital, LLC (f/k/a LCM Investment Management, LLC)(the "Prior Adviser") served as the Fund's investment adviser. During the fiscal year ended February 28, 2019, the Fund paid \$478,175 in advisory fees to Destra and \$1,831,869 in advisory fees to the Prior Adviser. During the fiscal year ended February 28, 2018, the Fund paid \$2,222,113 in advisory fees to the Prior Adviser. During the fiscal year ended February 28, 2017, the Fund paid \$1,492,225 in advisory fees to the Prior Adviser.

Destra and the Fund have entered into an expense limitation agreement (the "Expense Limitation Agreement") under which, until November 30, 2020, Destra has agreed to reduce its fees and/or absorb expenses of the Fund to ensure that total fund operating expenses after fee waiver and/or reimbursement (excluding any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, fees and expenses associated with instruments in other collective investment vehicles or derivative instruments (including, for example, options and swap fees and expenses), borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees and contractual indemnification of Fund service providers (other than the Adviser)) will not exceed 1.95% of Class A shares' net assets, 2.45% of Class T shares' net assets, 2.70% of Class C shares' net assets, and 1.70% of Class I shares' net assets (the "Expense Limitation"). In consideration of Destra's agreement to limit the Fund's expenses, the Fund has agreed to repay Destra pro rata in the amount of any Fund expense paid or waived by it, subject to the limitations that: (1) the reimbursement for expenses will be made only if payable not more than three years following the time such payment or waiver was made; and (2) the reimbursement may not be made if it would cause the Fund's then-current Expense Limitation, if any, and the Expense Limitation that was in effect at the time when Destra reimbursed, paid or absorbed the ordinary operating expenses that are the subject of the repayment, to be exceeded. Destra may not terminate the Expense Limitation Agreement during the initial term. After the initial term, either the Board or Destra may terminate the Expense Limitation Agreement upon 60 days' written notice.

During the fiscal year ended February 28, 2019, the Prior Adviser waived fees/reimbursed expenses of \$283,500 under a previous expense limitation agreement, and Destra waived fees/reimbursed expenses of \$43,956 under the Expense Limitation Agreement. During the fiscal year ended February 28, 2018, the Prior Adviser waived fees/reimbursed expenses of \$386,639 under a previous expense limitation agreement.

The Sub-Adviser

Destra has engaged Pinhook Capital, LLC (f/k/a LCM Investment Management, LLC), a California limited liability company, to act as the Fund’s investment sub-adviser pursuant to a sub-advisory agreement (the “Sub-Advisory Agreement”). Pinhook has responsibility to make investment decisions for the Fund’s portfolio, subject to the oversight of Destra. Pinhook is located at 13520 Evening Creek Drive N., Suite 300, San Diego, CA 92128. Pinhook is registered with the SEC as an investment adviser under the Investment Advisers Act of 1940, as amended, and was established in June 2011 for the purpose of providing investment management services to institutional investors such as the Fund. The majority of interests of the Pinhook are owned by Raymond Lucia, Jr., who is deemed to control the Sub-Adviser because he owns more than 25% of the voting interests of the Sub-Adviser.

The Sub-Advisory Agreement provides that the Sub-Adviser is entitled to receive an annual fee from the Adviser equal to 50% of the net revenue received by the Adviser after any fee waivers, subject to a maximum of 0.675% of the Fund’s average daily net assets. The Sub-Adviser is compensated by the Adviser, not the Fund. During the fiscal year ended February 28, 2019, the Adviser paid \$237,059 in sub-advisory fees to the Sub-Adviser.

The Sub-Advisory Agreement may be terminated at any time, without the payment of any penalty, upon 60 days’ written notice by Pinhook or, if the Board or the holders of a majority of the Fund’s outstanding voting securities determine that the Sub-Advisory Agreement with Pinhook should be terminated. The Sub-Advisory Agreement will automatically terminate in the event of its assignment (as such term is defined for purposes of Section 15(a)(4) of the 1940 Act) or the termination of the Investment Management Agreement.

Portfolio Management

Other Accounts Managed by Portfolio Managers

The portfolio managers primarily responsible for the day-to-day management of the Fund also manage other registered investment companies, other pooled investment vehicles and other accounts, as indicated below. The following table identifies, as of February 28, 2019: (i) the number of other registered investment companies, other pooled investment vehicles and other accounts managed by each portfolio manager; (ii) the total assets of such companies, vehicles and accounts; and (iii) the number and total assets of such companies, vehicles and accounts that are subject to an advisory fee based on performance.

	Number of Accounts	Assets of Accounts (in thousands)	Number of Accounts Subject to a Performance Fee	Assets Subject to a Performance Fee (in thousands)
<u>Aaron Rosen</u>				
Registered Investment Companies	1	\$ 178,487	0	N/A
Other Pooled Investment Vehicles.	1	\$ 324,427	0	N/A
Other Accounts	0	N/A	0	N/A
<u>Mark C. Scalzo</u>				
Registered Investment Companies	1	\$ 178,487	0	N/A
Other Pooled Investment Vehicles.	1	\$ 390,234	0	N/A
Other Accounts	0	N/A	0	N/A

Compensation of Portfolio Managers

Mr. Rosen is the Fund’s Co-Portfolio Manager, and has served in this capacity since January 2016. As of June 1, 2016, Mr. Rosen receives a salary, a discretionary bonus and is eligible for retirement plan benefits from the Sub-Adviser. Mr. Scalzo is the Fund’s Co-Portfolio manager and has served in this capacity since March 1, 2015. As of February 29, 2016, Mr. Scalzo receives a salary, a discretionary bonus and is eligible for retirement plan benefits from the Sub-Adviser.

Because the portfolio managers may manage assets for other pooled investment vehicles and/or other accounts (including institutional clients, pension plans and certain high net worth individuals (collectively, “Client Accounts”)) or may be affiliated with such Client Accounts, there may be an incentive to favor one Client Account over another, resulting in conflicts of interest. For example, the Sub-Adviser may, directly or indirectly, receive fees from Client Accounts that are higher than the fee it receives from the Fund, or it may, directly or indirectly, receive a performance-based fee on a Client Account. In those instances, a portfolio manager may have an incentive to not favor the Fund over the Client Accounts. The Sub-Adviser has adopted trade allocation and other policies and procedures that it believes are reasonably designed to address these and other conflicts of interest.

Securities Ownership of Portfolio Managers

As of February 28, 2019, neither of the Fund’s portfolio managers owned Shares of the Fund.

CONFLICTS OF INTEREST

The Adviser, the Sub-Adviser and the portfolio managers of the Fund have interests which may conflict with the interests of the Fund. In particular, the Adviser and the Sub-Adviser each manages and/or advises other investment funds or accounts with the same or similar investment objective and strategies as the Fund. As a result, the Adviser, the Sub-Adviser and the Fund's portfolio managers may devote unequal time and attention to the management of the Fund and those other funds and accounts, and may not be able to formulate as complete a strategy or identify equally attractive investment opportunities as might be the case if they were to devote substantially more attention to the management of the Fund. The Adviser, the Sub-Adviser and the Fund's portfolio managers may identify a limited investment opportunity that may be suitable for multiple funds and accounts, and the opportunity may be allocated among these several funds and accounts, which may limit the Fund's ability to take full advantage of the investment opportunity. Additionally, transaction orders may be aggregated for multiple accounts for purposes of execution, which may cause the price or brokerage costs to be less favorable to the Fund than if similar transactions were not being executed concurrently for other accounts. Furthermore, it is theoretically possible that a portfolio manager could use the information obtained from managing a fund or account to the advantage of other funds or accounts under management, and also theoretically possible that actions could be taken (or not taken) to the detriment of the Fund. At times, a portfolio manager may determine that an investment opportunity may be appropriate for only some of the funds and accounts for which he or she exercises investment responsibility, or may decide that certain of the funds and accounts should take differing positions with respect to a particular security. In these cases, the portfolio manager may place separate transactions for one or more funds or accounts which may affect the market price of the security or the execution of the transaction, or both, to the detriment or benefit of one or more other funds and accounts. For example, a portfolio manager may determine that it would be in the interest of another account to sell a security that the Fund holds, potentially resulting in a decrease in the market value of the security held by the Fund.

Conflicts potentially limiting the Fund's investment opportunities may also arise when the Fund and other clients of the Adviser or Sub-Adviser invest in, or even conduct research relating to, different parts of an issuer's capital structure. In such circumstances, decisions over whether to trigger an event of default, over the terms of any workout, or how to exit an investment may result in conflicts of interest. In order to minimize such conflicts, a portfolio manager may avoid certain investment opportunities that would potentially give rise to conflicts with other clients of the Adviser or Sub-Adviser (as applicable) or result in the Adviser or Sub-Adviser receiving material, non-public information, or the Adviser and Sub-Adviser may enact internal procedures designed to minimize such conflicts, which could have the effect of limiting the Fund's investment opportunities. Additionally, if the Adviser or Sub-Adviser acquires material non-public confidential information in connection with its business activities for other clients, a portfolio manager or other investment personnel may be restricted from purchasing securities or selling certain securities for the Fund or other clients.

The portfolio managers also may engage in cross trades between funds and accounts, may select brokers or dealers to execute securities transactions based in part on brokerage and research services provided to the Adviser or the Sub-Adviser which may not benefit all funds and accounts equally and may receive different amounts of financial or other benefits for managing different funds and accounts. Finally, the Adviser, the Sub-Adviser and their affiliates may provide more services to some types of funds and accounts than others.

PORTFOLIO TRANSACTIONS AND BROKERAGE ALLOCATION

Specific decisions to purchase or sell securities for the Fund are made by the portfolio managers. The Adviser and Sub-Adviser are authorized by the Trustees to allocate the orders placed on behalf of the Fund to brokers or dealers who may, but need not, provide research or statistical material or other services to the Fund or the Adviser and/or Sub-Adviser for the Fund's use. Such allocation is to be in such amounts and proportions as the Adviser and/or Sub-Adviser may determine.

In selecting a broker or dealer to execute each particular transaction, the following is taken into consideration:

- the best net price available;
- the reliability, integrity and financial condition of the broker or dealer;
- the size of and difficulty in executing the order; and
- the value of the expected contribution of the broker or dealer to the investment performance of the Fund on a continuing basis.

Brokers or dealers executing a portfolio transaction on behalf of the Fund may receive a commission in excess of the amount of commission another broker or dealer would have charged for executing the transaction if the Adviser or Sub-Adviser, as applicable, determines in good faith that such commission is reasonable in relation to the value of brokerage and research services provided to the Fund. In allocating portfolio brokerage, the Adviser or Sub-Adviser may select brokers or dealers who also provide brokerage, research and other services to other accounts over which the Adviser or Sub-Adviser exercises investment discretion. Some of the services received as the result of Fund transactions may primarily benefit accounts other than the Fund, while services received as the result of portfolio transactions effected on behalf of those other accounts may primarily benefit the Fund.

During the fiscal years ended February 28, 2019, February 28, 2018 and February 29, 2017, Lucia Securities, LLC ("Lucia Securities"), an affiliate of the Sub-Adviser, received \$15,886, \$14,579 and \$14,726, respectively, in placement fees which could be deemed to be a form of brokerage commissions. During the fiscal year ended February 28, 2019, the percentage of the Fund's (i) aggregate brokerage commissions paid to Lucia Securities was 100%; and (ii) aggregate dollar amount of transactions involving the payment of commissions effected through Lucia Securities was 100%.

Affiliated Party Brokerage

The Adviser, Sub-Adviser, and their affiliates will not purchase securities or other property from, or sell securities or other property to, the Fund, except that the Fund may in accordance with rules under the 1940 Act engage in transactions with accounts that are affiliated with the Fund as a result of common officers, directors, advisers, members, managing general partners or common control. These transactions would be effected in circumstances in which the Adviser and/or Sub-Adviser, as applicable, has determined that it would be appropriate for the Fund to purchase and another client to sell, or the Fund to sell and another client to purchase, the same security or instrument each on the same day.

The Sub-Adviser executes trades, on behalf of the Fund, through its affiliated broker, Lucia Securities. The Sub-Adviser may realize a profit from such trading activity. Any commission, fee or other remuneration paid to an affiliated broker or dealer is paid in compliance with the Fund's procedures adopted in accordance with Rule 17e-1 under the 1940 Act. The policy of the Fund with respect to brokerage is reviewed by the Trustees from time to time. Because of the possibility of further regulatory developments affecting the securities exchanges and brokerage practices generally, the foregoing practices may be modified.

PROXY VOTING POLICY AND PROXY VOTING RECORD

The Board has adopted Proxy Voting Policies and Procedures (“Policies”) on behalf of the Trust, which delegate the responsibility for voting proxies to the Adviser, subject to the Board’s continuing oversight. The Adviser has delegated proxy voting responsibility to the Sub-Adviser. The Policies require that the Sub-Adviser vote, or cause to be voted, proxies received in a manner consistent with the best interests of the Fund and shareholders. A summary of the proxy policies and procedures of the Sub-Adviser is attached to this SAI. The Sub-Adviser will vote such proxies in accordance with its proxy policies and procedures. The Policies also require the Sub-Adviser to present to the Board, at least annually, the Sub-Adviser’s Proxy Policies and a record of the proxy voted, or those caused to be voted, by the Sub-Adviser on behalf of the Fund, including a report on the resolution of all proxies identified by the Sub-Adviser involving a conflict of interest.

Where a proxy proposal raises a material conflict between the interests of the Adviser or Sub-Adviser, any affiliated person(s) of the Adviser or Sub-Adviser, the Fund’s principal underwriter (distributor) or any affiliated person of the principal underwriter (distributor), or any affiliated person of the Trust and the Fund’s or its shareholder’s interests, the Sub-Adviser will resolve the conflict by voting in accordance with the policy guidelines or at the Trust’s directive using the recommendation of an independent third party. If the third party’s recommendations are not received in a timely fashion, the Sub-Adviser will abstain from voting.

Information regarding how the Fund voted proxies relating to portfolio securities held by the Fund during the most recent 12-month period ending June 30 will be available (1) without charge, upon request, by calling the Fund toll-free at 1-855-601-3841; and (2) on the U.S. Securities and Exchange Commission’s website at <http://www.sec.gov>. In addition, a copy of the Fund’s proxy voting policies and procedures are also available by calling toll-free at 1-855-601-3841 and will be sent within three business days of receipt of a request.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

A control person is one who owns, either directly or indirectly more than 25% of the voting securities of a company or acknowledges the existence of such control. A control person may be able to determine the outcome of a matter put to a shareholder vote. A principal shareholder is any person who owns (either of record or beneficially) 5% or more of any class of the Fund's outstanding shares.

As of May 30, 2019, the following shareholders of record owned 5% or more of a class of the outstanding shares of the Fund:

<u>Name and Address</u>	<u>Percentage of Ownership</u>
RBC CAPITAL MARKETS LLC GAETANO ANGELONE MARIA ANGELONE JT TEN/NROS 3330 SE RIVER VISTA DR PORT ST LUCIE, FL 34952-5956	5.16% of Class T Shares

As of May 30, the Fund's Trustees and Officers as a group owned beneficially less than 1% of the outstanding shares of the Fund.

DISTRIBUTOR

Destra Capital Investments, LLC (the “Distributor”), a registered broker-dealer and affiliate of the Adviser, located at 444 West Lake Street, Suite 1700, Chicago, Illinois 60606, serves as the Fund’s principal underwriter and acts as the distributor of the Fund’s shares, subject to various conditions.

Under the Fund’s previous distribution agreement with Northern Lights Distributors, LLC (the “Prior Distributor”), the Prior Distributor entered into a sub-distribution agreement with Destra Capital Investments, under which Destra Capital Investments provided wholesaling services with respect to the Fund. Previously, the Prior Distributor had also entered into a sub-distribution arrangement with Lucia Securities, LLC, a registered broker-dealer and affiliate of the Sub-Adviser. For the fiscal year ended February 28, 2019, Destra Capital Investments received \$22,500 under the sub-distribution agreement, and Lucia Securities received \$459 under the sub-distribution agreement. For the fiscal year ended February 28, 2018, Lucia Securities received \$42,201.01 under the agreement. For the fiscal year ended February 28, 2017, Lucia Securities received \$105,027.22 under the agreement. The sub-distribution arrangement with Lucia Securities terminated on November 30, 2018.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

An independent registered public accounting firm for the Fund will perform an annual audit of the Fund's financial statements. The Board has engaged Cohen & Company, Ltd., located at 1350 Euclid Ave., Suite 800, Cleveland, OH 44115, to serve as the Fund's independent registered public accounting firm.

LEGAL COUNSEL

Drinker Biddle & Reath LLP, One Logan Square, Suite 2000, Philadelphia, PA 19103-6996, serves as counsel to the Fund.

ADMINISTRATOR

The Fund has contracted with Gemini Fund Services, LLC ("GFS"), located at 80 Arkay Drive, Suite 110, Hauppauge, NY 11788, to provide various accounting and administrative services, and to assist with operational the Fund's needs. For the fiscal year ended February 28, 2019, the Fund paid \$148,915, \$59,096 and \$136,076 in administration, fund accounting and transfer agency fees, respectively. For the fiscal year ended February 28, 2018, the Fund paid \$192,001, \$71,485 and \$211,001 in administration, fund accounting and transfer agency fees, respectively. For the fiscal year ended February 28, 2017, the Fund paid \$188,655, \$70,224 and \$189,636 in administration, fund accounting and transfer agency fees, respectively.

CUSTODIAN

UMB Bank, N.A. (the "Custodian"), which has its principal address at 928 Grand Boulevard, Kansas City, MO 64106, serves as custodian for the Fund.

ADDITIONAL INFORMATION

A registration statement on Form N-2, including amendments thereto, relating to the Shares offered hereby, has been filed by the Fund with the SEC. The Prospectus and this Statement of Additional Information do not contain all of the information set forth in the registration statement, including any exhibits and schedules thereto. For further information with respect to the Fund and the Shares offered hereby, reference is made to the registration statement. A copy of the registration statement may be reviewed on the EDGAR database on the SEC's website at <http://www.sec.gov>. Prospective investors can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address (publicinfo@sec.gov).

APPENDIX A — Sub-Adviser Proxy Voting Policies and Procedures

Sub-Adviser

PROXY VOTING POLICIES AND PROCEDURES

PROXY VOTING: Pinhook Capital, LLC (f/k/a LCM Investment Management, LLC)

SUMMARY OF PROXY VOTING GUIDELINES

In the absence of specific voting guidelines from the client, Pinhook Capital, LLC (“Pinhook”) will vote proxies in the best interests of each particular client. Pinhook’s policy is to vote all proxies from a specific issuer the same way for each client absent qualifying restrictions from a client. Clients are permitted to place reasonable restrictions on Pinhook’s voting authority in the same manner that they may place such restrictions on the actual selection of account securities.

Pinhook will generally vote in favor of routine corporate housekeeping proposals such as the election of directors and selection of auditors absent conflicts of interest raised by an auditor’s non-audit services.

Pinhook will generally vote against proposals that cause board members to become entrenched or cause unequal voting rights.

In reviewing proposals, Pinhook will further consider the opinion of management and the effect on management, and the effect on shareholder value and the issuer’s business practices.

If Pinhook is voting proxies on behalf of a registered investment company (“RIC”), any proxies received for holdings in other RICs will vote proxies proportionally to reflect, or echo, the way that previous voters split on a particular issue. For example, if 100 shareholders cast 60 votes for a proposal and 40 votes against, the brokerage firm would follow the 3:2 proportion in voting the proxies of the non-voting shareholders.

Conflicts of Interest: Pinhook will identify any conflicts that exist between the interests of the adviser and the client by reviewing the relationship of Pinhook or Pinhook’s affiliates with the issuer of each security to determine if Pinhook or any of its employees has any financial, business or personal relationship with the issuer.

If a material conflict of interest exists, the portfolio manager will vote in a manner consistent with an independent third party voting recommendation.

Pinhook will maintain a record of the voting resolution of any conflict of interest.

APPENDIX B — RATINGS OF INVESTMENTS

Short-Term Credit Ratings

An *S&P Global Ratings* short-term issue credit rating is generally assigned to those obligations considered short-term in the relevant market. The following summarizes the rating categories used by S&P Global Ratings for short-term issues:

“A-1” — A short-term obligation rated “A-1” is rated in the highest category by S&P Global Ratings. The obligor’s capacity to meet its financial commitments on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor’s capacity to meet its financial commitment on these obligations is extremely strong.

“A-2” — A short-term obligation rated “A-2” is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor’s capacity to meet its financial commitments on the obligation is satisfactory.

“A-3” — A short-term obligation rated “A-3” exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken an obligor’s capacity to meet its financial commitments on the obligation.

“B” — A short-term obligation rated “B” is regarded as vulnerable and has significant speculative characteristics. The obligor currently has the capacity to meet its financial commitments; however, it faces major ongoing uncertainties that could lead to the obligor’s inadequate capacity to meet its financial commitments.

“C” — A short-term obligation rated “C” is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitments on the obligation.

“D” — A short-term obligation rated “D” is in default or in breach of an imputed promise. For non-hybrid capital instruments, the “D” rating category is used when payments on an obligation are not made on the date due, unless S&P Global Ratings believes that such payments will be made within any stated grace period. However, any stated grace period longer than five business days will be treated as five business days. The “D” rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. An obligation’s rating is lowered to “D” if it is subject to a distressed exchange offer.

Local Currency and Foreign Currency Ratings — S&P Global Ratings’ issuer credit ratings make a distinction between foreign currency ratings and local currency ratings. A foreign currency rating on an issuer will differ from the local currency rating on it when the obligor has a different capacity to meet its obligations denominated in its local currency, vs. obligations denominated in a foreign currency.

Moody’s Investors Service (“Moody’s”) short-term ratings are forward-looking opinions of the relative credit risks of financial obligations with an original maturity of thirteen months or less and reflect both on the likelihood of a default or impairment on contractual financial obligations and the expected financial loss suffered in the event of default or impairment.

Moody’s employs the following designations to indicate the relative repayment ability of rated issuers:

“P-1” — Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

“P-2” — Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

“P-3” — Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term obligations.

“NP” — Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

“NR” — Is assigned to an unrated issuer.

Fitch, Inc. / Fitch Ratings Ltd. (“Fitch”) short-term issuer or obligation rating is based in all cases on the short-term vulnerability to default of the rated entity and relates to the capacity to meet financial obligations in accordance with the documentation governing the relevant obligation. Short-term deposit ratings may be adjusted for loss severity. Short-term ratings are assigned to obligations whose initial maturity is viewed as “short-term” based on market convention. Typically, this means up to 13 months for corporate, sovereign, and structured obligations and up to 36 months for obligations in U.S. public finance markets. The following summarizes the rating categories used by Fitch for short-term obligations:

“F1” — Securities possess the highest short-term credit quality. This designation indicates the strongest intrinsic capacity for timely payment of financial commitments; may have an added “+” to denote any exceptionally strong credit feature.

“F2” — Securities possess good short-term credit quality. This designation indicates good intrinsic capacity for timely payment of financial commitments.

“F3” — Securities possess fair short-term credit quality. This designation indicates that the intrinsic capacity for timely payment of financial commitments is adequate.

“B” — Securities possess speculative short-term credit quality. This designation indicates minimal capacity for timely payment of financial commitments, plus heightened vulnerability to near term adverse changes in financial and economic conditions.

“C” — Securities possess high short-term default risk. Default is a real possibility.

“RD” — Restricted default. Indicates an entity that has defaulted on one or more of its financial commitments, although it continues to meet other financial obligations. Typically applicable to entity ratings only.

“D” — Default. Indicates a broad-based default event for an entity, or the default of a short-term obligation.

Plus (+) or minus (-) — The “F1” rating may be modified by the addition of a plus (+) or minus (-) sign to show the relative status within that major rating category.

“NR” — Is assigned to an unrated issue of a rated issuer.

The **DBRS® Ratings Limited (“DBRS”)** short-term debt rating scale provides an opinion on the risk that an issuer will not meet its short-term financial obligations in a timely manner. Ratings are based on quantitative and qualitative considerations relevant to the issuer and the relative ranking of claims. The R-1 and R-2 rating categories are further denoted by the sub-categories “(high)”, “(middle)”, and “(low)”.

The following summarizes the ratings used by DBRS for commercial paper and short-term debt:

“R-1 (high)” — Short-term debt rated “R-1 (high)” is of the highest credit quality. The capacity for the payment of short-term financial obligations as they fall due is exceptionally high. Unlikely to be adversely affected by future events.

“R-1 (middle)” — Short-term debt rated “R-1 (middle)” is of superior credit quality. The capacity for the payment of short-term financial obligations as they fall due is very high. Differs from “R-1 (high)” by a relatively modest degree. Unlikely to be significantly vulnerable to future events.

“R-1 (low)” — Short-term debt rated “R-1 (low)” is of good credit quality. The capacity for the payment of short-term financial obligations as they fall due is substantial. Overall strength is not as favorable as higher rating categories. May be vulnerable to future events, but qualifying negative factors are considered manageable.

“R-2 (high)” — Short-term debt rated “R-2 (high)” is considered to be at the upper end of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events.

“R-2 (middle)” — Short-term debt rated “R-2 (middle)” is considered to be of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events or may be exposed to other factors that could reduce credit quality.

“R-2 (low)” — Short-term debt rated “R-2 (low)” is considered to be at the lower end of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events. A number of challenges are present that could affect the issuer’s ability to meet such obligations.

“R-3” — Short-term debt rated “R-3” is considered to be at the lowest end of adequate credit quality. There is a capacity for the payment of short-term financial obligations as they fall due. May be vulnerable to future events and the certainty of meeting such obligations could be impacted by a variety of developments.

“R-4” — Short-term debt rated “R-4” is considered to be of speculative credit quality. The capacity for the payment of short-term financial obligations as they fall due is uncertain.

“R-5” — Short-term debt rated “R-5” is considered to be of highly speculative credit quality. There is a high level of uncertainty as to the capacity to meet short-term financial obligations as they fall due.

“D” — Short-term debt rated “D” is assigned when the issuer has filed under any applicable bankruptcy, insolvency or winding up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods, a downgrade to “D” may occur. DBRS may also use “SD” (Selective Default) in cases where only some securities are impacted, such as the case of a “distressed exchange”.

Long-Term Credit Ratings

The following summarizes the ratings used by *S&P Global Ratings* for long-term issues:

“AAA” — An obligation rated “AAA” has the highest rating assigned by S&P Global Ratings. The obligor’s capacity to meet its financial commitments on the obligation is extremely strong.

“AA” — An obligation rated “AA” differs from the highest-rated obligations only to a small degree. The obligor’s capacity to meet its financial commitments on the obligation is very strong.

“A” — An obligation rated “A” is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor’s capacity to meet its financial commitments on the obligation is still strong.

“BBB” — An obligation rated “BBB” exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the obligor’s capacity to meet its financial commitments on the obligation.

“BB,” “B,” “CCC,” “CC” and “C” — Obligations rated “BB,” “B,” “CCC,” “CC” and “C” are regarded as having significant speculative characteristics. “BB” indicates the least degree of speculation and “C” the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposure to adverse conditions.

“BB” — An obligation rated “BB” is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions that could lead to the obligor’s inadequate capacity to meet its financial commitments on the obligation.

“B” — An obligation rated “B” is more vulnerable to nonpayment than obligations rated “BB”, but the obligor currently has the capacity to meet its financial commitments on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor’s capacity or willingness to meet its financial commitments on the obligation.

“CCC” — An obligation rated “CCC” is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitments on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitments on the obligation.

“CC” — An obligation rated “CC” is currently highly vulnerable to nonpayment. The “CC” rating is used when a default has not yet occurred but S&P Global Ratings expects default to be a virtual certainty, regardless of the anticipated time to default.

“C” — An obligation rated “C” is currently highly vulnerable to nonpayment, and the obligation is expected to have lower relative seniority or lower ultimate recovery compared with obligations that are rated higher.

“D” — An obligation rated “D” is in default or in breach of an imputed promise. For non-hybrid capital instruments, the “D” rating category is used when payments on an obligation are not made on the date due, unless S&P Global Ratings believes that such payments will be made within five business days in the absence of a stated grace period or within the earlier of the stated grace period or 30 calendar days. The “D” rating also will be used upon the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. An obligation’s rating is lowered to “D” if it is subject to a distressed exchange offer.

Plus (+) or minus (-) — The ratings from “AA” to “CCC” may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

“NR” — This indicates that a rating has not been assigned, or is no longer assigned.

Local Currency and Foreign Currency Risks — S&P Global Ratings' issuer credit ratings make a distinction between foreign currency ratings and local currency ratings. An issuer's foreign currency rating will differ from its local currency rating when the obligor has a different capacity to meet its obligations denominated in its local currency, vs. obligations denominated in a foreign currency.

Moody's long-term ratings are forward-looking opinions of the relative credit risks of financial obligations with an original maturity of one year or more. Such ratings reflect both on the likelihood of default or impairment on contractual financial obligations and the expected financial loss suffered in the event of default or impairment. The following summarizes the ratings used by Moody's for long-term debt:

"Aaa" — Obligations rated "Aaa" are judged to be of the highest quality, subject to the lowest level of credit risk.

"Aa" — Obligations rated "Aa" are judged to be of high quality and are subject to very low credit risk.

"A" — Obligations rated "A" are judged to be upper-medium grade and are subject to low credit risk.

"Baa" — Obligations rated "Baa" are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

"Ba" — Obligations rated "Ba" are judged to be speculative and are subject to substantial credit risk.

"B" — Obligations rated "B" are considered speculative and are subject to high credit risk.

"Caa" — Obligations rated "Caa" are judged to be speculative of poor standing and are subject to very high credit risk.

"Ca" — Obligations rated "Ca" are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

"C" — Obligations rated "C" are the lowest rated and are typically in default, with little prospect for recovery of principal or interest.

Note: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from "Aa" through "Caa." The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

"NR" — Is assigned to unrated obligations.

The following summarizes long-term ratings used by **Fitch**:

"AAA" — Securities considered to be of the highest credit quality. "AAA" ratings denote the lowest expectation of credit risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

"AA" — Securities considered to be of very high credit quality. "AA" ratings denote expectations of very low credit risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

"A" — Securities considered to be of high credit quality. "A" ratings denote expectations of low credit risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

"BBB" — Securities considered to be of good credit quality. "BBB" ratings indicate that expectations of credit risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.

"BB" — Securities considered to be speculative. "BB" ratings indicate that there is an elevated vulnerability to credit risk, particularly in the event of adverse changes in business or economic conditions over time; however, business or financial alternatives may be available to allow financial commitments to be met.

"B" — Securities considered to be highly speculative. "B" ratings indicate that material credit risk is present.

"CCC" — A "CCC" rating indicates that substantial credit risk is present.

“CC” — A “CC” rating indicates very high levels of credit risk.

“C” — A “C” rating indicates exceptionally high levels of credit risk.

Defaulted obligations typically are not assigned “RD” or “D” ratings but are instead rated in the “CCC” to “C” rating categories, depending on their recovery prospects and other relevant characteristics. Fitch believes that this approach better aligns obligations that have comparable overall expected loss but varying vulnerability to default and loss.

Plus (+) or minus (-) may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the “AAA” obligation rating category, or to corporate finance obligation ratings in the categories below “CCC”.

“NR” — Is assigned to an unrated issue of a rated issuer.

The **DBRS** long-term rating scale provides an opinion on the risk of default. That is, the risk that an issuer will fail to satisfy its financial obligations in accordance with the terms under which an obligation has been issued. Ratings are based on quantitative and qualitative considerations relevant to the issuer, and the relative ranking of claims. All rating categories other than AAA and D also contain subcategories “(high)” and “(low)”. The absence of either a “(high)” or “(low)” designation indicates the rating is in the middle of the category. The following summarizes the ratings used by DBRS for long-term debt:

“AAA” — Long-term debt rated “AAA” is of the highest credit quality. The capacity for the payment of financial obligations is exceptionally high and unlikely to be adversely affected by future events.

“AA” — Long-term debt rated “AA” is of superior credit quality. The capacity for the payment of financial obligations is considered high. Credit quality differs from “AAA” only to a small degree. Unlikely to be significantly vulnerable to future events.

“A” — Long-term debt rated “A” is of good credit quality. The capacity for the payment of financial obligations is substantial, but of lesser credit quality than “AA.” May be vulnerable to future events, but qualifying negative factors are considered manageable.

“BBB” — Long-term debt rated “BBB” is of adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events.

“BB” — Long-term debt rated “BB” is of speculative, non-investment grade credit quality. The capacity for the payment of financial obligations is uncertain. Vulnerable to future events.

“B” — Long-term debt rated “B” is of highly speculative credit quality. There is a high level of uncertainty as to the capacity to meet financial obligations.

“CCC”, “CC” and “C” — Long-term debt rated in any of these categories is of very highly speculative credit quality. In danger of defaulting on financial obligations. There is little difference between these three categories, although “CC” and “C” ratings are normally applied to obligations that are seen as highly likely to default, or subordinated to obligations rated in the “CCC” to “B” range. Obligations in respect of which default has not technically taken place but is considered inevitable may be rated in the “C” category.

“D” — A security rated “D” is assigned when the issuer has filed under any applicable bankruptcy, insolvency or winding up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods, a downgrade to “D” may occur. DBRS may also use “SD” (Selective Default) in cases where only some securities are impacted, such as the case of a “distressed exchange”.

Municipal Note Ratings

An **S&P Global Ratings** U.S. municipal note rating reflects S&P Global Ratings’ opinion about the liquidity factors and market access risks unique to the notes. Notes due in three years or less will likely receive a note rating. Notes with an original maturity of more than three years will most likely receive a long-term debt rating. In determining which type of rating, if any, to assign, S&P Global Ratings’ analysis will review the following considerations:

- Amortization schedule — the larger the final maturity relative to other maturities, the more likely it will be treated as a note; and
- Source of payment — the more dependent the issue is on the market for its refinancing, the more likely it will be treated as a note.

Municipal Short-Term Note rating symbols are as follows:

“SP-1” — A municipal note rated “SP-1” exhibits a strong capacity to pay principal and interest. An issue determined to possess a very strong capacity to pay debt service is given a plus (+) designation.

“SP-2” — A municipal note rated “SP-2” exhibits a satisfactory capacity to pay principal and interest, with some vulnerability to adverse financial and economic changes over the term of the notes.

“SP-3” — A municipal note rated “SP-3” exhibits a speculative capacity to pay principal and interest.

“D” — This rating is assigned upon failure to pay the note when due, completion of a distressed exchange offer, or the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions.

Moody’s uses the Municipal Investment Grade (“MIG”) scale to rate U.S. municipal bond anticipation notes of up to five years maturity. Municipal notes rated on the MIG scale may be secured by either pledged revenues or proceeds of a take-out financing received prior to note maturity. MIG ratings expire at the maturity of the obligation, and the issuer’s long-term rating is only one consideration in assigning the MIG rating. MIG ratings are divided into three levels — “MIG-1” through “MIG-3” while speculative grade short-term obligations are designated “SG”. The following summarizes the ratings used by Moody’s for short-term municipal obligations:

“MIG-1” — This designation denotes superior credit quality. Excellent protection is afforded by established cash flows, highly reliable liquidity support, or demonstrated broad-based access to the market for refinancing.

“MIG-2” — This designation denotes strong credit quality. Margins of protection are ample, although not as large as in the preceding group.

“MIG-3” — This designation denotes acceptable credit quality. Liquidity and cash-flow protection may be narrow, and market access for refinancing is likely to be less well-established.

“SG” — This designation denotes speculative-grade credit quality. Debt instruments in this category may lack sufficient margins of protection.

“NR” — Is assigned to an unrated obligation.

In the case of variable rate demand obligations (“VRDOs”), a two-component rating is assigned: a long or short-term debt rating and a demand obligation rating. The first element represents Moody’s evaluation of risk associated with scheduled principal and interest payments. The second element represents Moody’s evaluation of risk associated with the ability to receive purchase price upon demand (“demand feature”). The second element uses a rating from a variation of the MIG scale called the Variable Municipal Investment Grade or “VMIG” scale. The rating transitions on the VMIG scale differ from those on the Prime scale to reflect the risk that external liquidity support generally will terminate if the issuer’s long-term rating drops below investment grade.

“VMIG-1” — This designation denotes superior credit quality. Excellent protection is afforded by the superior short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

“VMIG-2” — This designation denotes strong credit quality. Good protection is afforded by the strong short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

“VMIG-3” — This designation denotes acceptable credit quality. Adequate protection is afforded by the satisfactory short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

“SG” — This designation denotes speculative-grade credit quality. Demand features rated in this category may be supported by a liquidity provider that does not have an investment grade short-term rating or may lack the structural and/or legal protections necessary to ensure the timely payment of purchase price upon demand.

“NR” — Is assigned to an unrated obligation.

About Credit Ratings

An **S&P Global Ratings** issue credit rating is a forward-looking opinion about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The opinion reflects S&P Global Ratings' view of the obligor's capacity and willingness to meet its financial commitments as they come due, and this opinion may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default.

Ratings assigned on **Moody's** global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by non-financial corporates, financial institutions, structured finance vehicles, project finance vehicles, and public sector entities.

Fitch's credit ratings provide an opinion on the relative ability of an entity to meet financial commitments, such as interest, preferred dividends, repayment of principal, insurance claims or counterparty obligations. Fitch credit ratings are used by investors as indications of the likelihood of receiving the money owed to them in accordance with the terms on which they invested. Fitch's credit ratings cover the global spectrum of corporate, sovereign financial, bank, insurance, and public finance entities (including supranational and sub-national entities) and the securities or other obligations they issue, as well as structured finance securities backed by receivables or other financial assets.

Credit ratings provided by **DBRS** are forward-looking opinions about credit risk which reflect the creditworthiness of an issuer, rated entity, and/or security. Credit ratings are not statements of fact. While historical statistics and performance can be important considerations, credit ratings are not based solely on such; they include subjective considerations and involve expectations for future performance that cannot be guaranteed. To the extent that future events and economic conditions do not match expectations, credit ratings assigned to issuers and/or securities can change. Credit ratings are also based on approved and applicable Methodologies ("Methodologies"), which are periodically updated and when material changes are deemed necessary, this may also lead to rating changes.

Credit ratings typically provide an opinion on the risk that investors may not be repaid in accordance with the terms under which the obligation was issued. In some cases, credit ratings may also include consideration for the relative ranking of claims and recovery, should default occur. Credit ratings are meant to provide opinions on relative measures of risk and are not based on expectations of any specific default probability, nor are they meant to predict such.

The data and information on which DBRS bases its opinions is not audited or verified by DBRS, although, DBRS conducts a reasonableness review of information received and relied upon in accordance with its Methodologies and policies.

DBRS uses rating symbols as a concise method of expressing its opinion to the market, but there are a limited number of rating categories for the possible slight risk differentials that exist across the rating spectrum and DBRS does not assert that credit ratings in the same category are of "exactly" the same quality.

February 28, 2019

1. ORGANIZATION

Destra Multi-Alternative Fund (“the Fund”), formerly known as Multi-Strategy Growth & Income Fund, was organized as a Delaware statutory trust on June 3, 2011, is registered under the Investment Company Act of 1940, as amended, (the “1940 Act”), and is a non-diversified, closed-end management investment company that operates as an interval fund with a continuous offering of Fund shares. The investment objective of the Fund is to seek returns from capital appreciation and income with an emphasis on income generation. The Fund pursues its investment objective by investing primarily in the income-producing securities of real estate investment trusts (“REITs”) and alternative investment funds, as well as common stocks and structured notes, notes, bonds and asset-backed securities.

The Fund currently offers Class A, Class C, Class I and Class L shares. Class A shares commenced operations on March 16, 2012; Class C, Class I and Class L shares commenced operations on July 2, 2014. Class A and Class L shares are offered at net asset value (“NAV”) plus a maximum sales charge of 5.75% and 2.00%, respectively. Class C and Class I shares are offered at net asset value. Each class represents an interest in the same assets of the Fund and classes are identical except for differences in their sales charge structures and ongoing service and distribution charges. All classes of shares have equal voting privileges except that each class has exclusive voting rights with respect to its service and/or distribution plans. The Fund’s income, expenses (other than class-specific distribution fees) and realized and unrealized gains and losses are allocated proportionately each day based upon the relative net assets of each class.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Fund in preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from those estimates. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standard Codification Topic 946 “Financial Services – Investment Companies” including FASB Accounting Standard Update “ASU” 2013-08.

Security Valuation — Securities listed on an exchange are valued at the last reported sale price at the close of the regular trading session of the exchange on the business day the value is being determined, or in the case of securities listed on NASDAQ, at the NASDAQ Official Closing Price (“NOCP”). In the absence of a sale, such securities shall be valued at the mean of the closing bid and asked prices on the day of valuation. Short-term investments that mature in 60 days or less may be valued at amortized cost, provided such valuations represent fair value.

When price quotations for certain securities are not readily available, or if the available quotations are not believed to be reflective of market value by the Advisor (defined below), those securities will be valued at “fair value” as determined in good faith by the Fair Valuation Committee using procedures adopted by and under the supervision of the Fund’s Board of Trustees (the “Board”). There can be no assurance that the Fund could purchase or sell a portfolio security at the price used to calculate the Fund’s NAV.

Fair valuation procedures may be used to value a substantial portion of the assets of the Fund. The Fund may use the fair value of a security to calculate its NAV when, for example, (1) a portfolio security is not traded in a public market or the principal market in which the security trades is closed, (2) trading in a portfolio security is suspended and not resumed prior to the normal market close, (3) a portfolio security is not traded in significant volume for a substantial period, or (4) the Advisor determines that the quotation or price for a portfolio security provided by a broker-dealer or independent pricing service is inaccurate.

The “fair value” of securities may be difficult to determine and thus judgment plays a greater role in the valuation process. The fair valuation methodology may include or consider the following guidelines, as appropriate: (1) evaluation of all relevant factors, including but not limited to, pricing history, current market level, supply and demand of the respective security; (2) comparison to the values and current pricing of securities that have comparable characteristics; (3) knowledge of historical market information with respect to the security; (4) other factors relevant to the security which would include, but would not be limited to, duration, yield, fundamental analytical data, the Treasury yield curve, and credit quality. Calls with the management teams of these securities are completed to gain further insight that might not be as evident through the reading of published reports or filings.

Destra Multi-Alternative Fund
NOTES TO FINANCIAL STATEMENTS
February 28, 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

Often, significant back-testing or historical data analysis is employed to gain increased, tangible perspective into ways to enhance the accuracy of either existing, or potentially new fair valuation approaches. This also ensures that recent enhancements or additional methodologies are leading to more accurate valuations.

Ongoing “logic checks” and evaluations of underlying portfolios are used to identify potential disconnects between current methodologies and expected results.

The values assigned to fair valued investments are based on available information and do not necessarily represent amounts that might ultimately be realized, since such amounts depend on future developments inherent in long-term investments. Changes in the fair valuation of portfolio securities may be less frequent and of greater magnitude than changes in the price of portfolio securities valued at their last sale price, by an independent pricing service, or based on market quotations. Imprecision in estimating fair value can also impact the amount of unrealized appreciation or depreciation recorded for a particular portfolio security and differences in the assumptions used could result in a different determination of fair value, and those differences could be material.

The Fund invests in some securities which are not traded and the Board’s Valuation Committee has established a methodology for the fair valuation of each type of security. Non-listed REITs that are in the public offering period (or start-up phase) are valued at cost according to management’s fair valuation methodology unless the REIT issues an updated valuation. The Fund generally purchases REITs at NAV or without a commission. However, startup REITs amortize a significant portion of their start-up costs and therefore, potentially carry additional risks that may impact valuation should the REIT be unable to raise sufficient capital and execute their business plan. As such, start-up REITs pose a greater risk than seasoned REITs because if they encounter going concern issues, they may see significant deviation in value from the fair value, cost basis approach as represented. Management is not aware of any information which would cause a change in cost basis valuation methodology currently being utilized for non-traded REITs in their offering period. Non-traded REITs that are in their offering period are generally categorized as Level 3 in the fair value hierarchy. Once a REIT closes to new investors, the Fund values the security based on the movement of an appropriate market index or a similar security that is publicly traded until the REIT issues an updated market valuation. Non-traded REITs that have closed to new investors are generally categorized in Level 2 of the fair value hierarchy, due to the significance of the effect of the application of the movement of the market index on the overall fair valuation of the REIT. Other non-traded private investments are monitored for any independent audits of the investment or impairments reported on the potential value of the investment. For non-traded private investments, including private real estate investment trusts and non-traded partnership funds, that are themselves treated as investment companies under GAAP, the Fund follows the guidance in GAAP that allows, as practical expedient, the Fund to value such investments at their reported NAV per share (or if not unitized, at an equivalent percentage of the capital of the investee entity). Such investments typically provide an updated NAV or its equivalent on a quarterly basis. The Valuation Committee meets frequently to discuss the valuation methodology and will adjust the value of a security if there is a public update to such valuation.

Non-listed business development companies provide quarterly fair value pricing which is used as an indicator of the valuation for the Fund. If the value significantly fluctuates, the Advisor will provide an updated price. If a significant event occurs that causes a large change in price, the Fair Valuation Committee will call a meeting to evaluate the fair value. Non-traded business development companies are categorized as Level 2 in the fair value hierarchy. Hedge funds provide monthly fair value pricing which is used as an indicator of the valuation for the Fund. The Fund values the security based on the movement of an appropriate market index or a similar security that is publicly traded until the hedge fund issues an updated market valuation.

Valuation of Fund of Funds — The Fund may invest in funds of open-end or closed-end investment companies (the “Underlying Funds”). The Underlying Funds value securities in their portfolios for which market quotations are readily available at their market values (generally the last reported sale price) and all other securities and assets at their fair value using the methods established by the board of directors of the Underlying Funds. Open-end funds are valued at their NAV per share and closed-end fund that trade on an exchange are valued as described under security valuation.

Destra Multi-Alternative Fund
NOTES TO FINANCIAL STATEMENTS
February 28, 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

The Fund utilizes various methods to measure the fair value of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

Level 1 — Unadjusted quoted prices in active markets for identical assets and liabilities that the Fund has the ability to access.

Level 2 — Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 — Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value of a security may fall into different levels (Level 1, Level 2 or Level 3) of the fair value hierarchy. In such cases, for disclosure purposes, the level within which the fair value measurement falls, in its entirety, is determined based on the lowest level input that is significant in its entirety to the fair value measurement.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following tables summarize the inputs used as of February 28, 2019 for the Fund's assets and liabilities measured at fair value:

Assets*

Investments:	Practical Expedient⁽¹⁾	Level 1	Level 2	Level 3	Total
Common Stocks	\$ —	\$ 8,480,792	\$ —	\$ —	\$ 8,480,792
Exchange Traded Fund	—	585,500	—	—	585,500
Exchange Traded Notes	—	874,000	—	—	874,000
Real Estate Investment Trusts	21,500,181	8,566,855	39,771,886	—	69,838,922
Non-Listed Business Development Companies	2,430,600	—	—	—	2,430,600
Private Business Development Companies	8,064,627	—	—	—	8,064,627
Private Investment Funds	44,845,211	—	—	—	44,845,211
Closed-End Funds	—	14,705,046	—	—	14,705,046
Hedge Fund	27,294,495	—	—	—	27,294,495
Short-Term Investment	—	639,801	—	—	639,801
Total Investments	\$ 104,135,114	\$ 33,851,994	\$ 39,771,886	\$ —	\$ 177,758,994

(1) Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the portfolio of investments.

* Refer to the Portfolio of Investments for industry classifications.

There was a change in fair valuation measurement inputs from Level 3 to practical expedient. Practical expedient became available based on the Fund receiving NAVs quarterly via investor letters and/or statements from the Sponsor of the investment.

			<u>\$ 97,011,297</u>	<u>\$ 104,135,114</u>		<u>\$ 37,524,362</u>		

Exchange Traded Funds — The Fund may invest in exchange traded funds (“ETFs”). Most ETFs are a type of index fund bought and sold on a securities exchange. An ETF trades like common stock and represents a fixed (or managed) portfolio of securities designed to track the performance and dividend yield of a particular domestic or foreign market index. The Fund may purchase an ETF to gain exposure to a portion of the U.S. or a foreign market. The risks of owning an ETF generally reflect the risks of owning the underlying securities it is designed to track, although the lack of liquidity on an ETF could result in it being more volatile. Additionally, ETFs have fees and expenses that reduce their value.

Security Transactions and Investment Income — Investment security transactions are accounted for on a trade date basis. Cost is determined and gains and losses are based upon the specific identification method for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Purchase discounts and premiums on securities are accreted and amortized over the life of the respective securities.

Federal Income Taxes — The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and will distribute all of its taxable income, if any to shareholders. Accordingly, no provision for Federal income taxes is required in the financial statements.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Fund’s tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years ended February 29, 2016 to February 28, 2018, or expected to be taken in the Fund’s February 28, 2019 year-end tax return. The Fund identifies its major tax jurisdiction as U.S. Federal. The Fund recognizes interest and penalties, if any, related to

Destra Multi-Alternative Fund
NOTES TO FINANCIAL STATEMENTS
February 28, 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

unrecognized tax benefits as income tax expense in the Statement of Operations. During the year ended February 28, 2019, the Fund did not incur any interest or penalties.

Distributions to Shareholders — Distributions from investment income are declared and paid monthly. Distributions from net realized capital gains, if any, are declared and paid annually and are recorded on the ex-dividend date. The character of income and gains to be distributed is determined in accordance with income tax regulations, which may differ from GAAP.

Indemnification — The Fund indemnifies its officers and Trustees for certain liabilities that may arise from the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnities. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Trust expects the risk of loss due to these warranties and indemnities to be remote.

3. RECENT ACCOUNTING PRONOUNCEMENTS AND REPORTING UPDATES

In August 2018, the FASB issued Accounting Standards Update (“ASU”) No. 2018-13, which changes certain fair value measurement disclosure requirements. The new ASU, in addition to other modifications and additions, removes the requirement to disclose the amount and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, and the policy for the timing of transfers between levels. For investment companies, the amendments are effective for financial statements issued for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. The Fund has adopted early.

In August 2018, the Securities and Exchange Commission adopted amendments to certain disclosure requirements under Regulation S-X to conform to US GAAP, including: (i) an amendment to require presentation of the total, rather than the components, of distributable earnings on the Statement of Assets and Liabilities; and (ii) an amendment to require presentation of the total, rather than the components, of distributions to shareholders, except for tax return of capital distributions, on the Statement of Changes in Net Assets. The amendments also removed the requirement for parenthetical disclosure of undistributed net investment income on the Statement of Changes in Net Assets. These amendments have been adopted with these financial statements.

4. INVESTMENT MANAGEMENT AND OTHER AGREEMENTS

Advisory Agreement — Pursuant to an investment advisory agreement with the Fund, (the “Advisory Agreement”), investment advisory services are provided to the Fund by Destra Capital Advisors LLC (the “Advisor”), effective November 30, 2018. Under the terms of the Advisory Agreement, the Advisor receives monthly fees calculated at an annual rate of 1.35% of the average daily net assets of the Fund. Prior to November 30, 2018, Pinhook Capital, LLC (f/k/a LCM Investment Management, LLC) (“Pinhook”) was the investment adviser to the Fund. For the period from February 28, 2018 to November 30, 2018, Pinhook earned advisory fees of \$1,831,869. For the period from December 1, 2018 to February 28, 2019, the Advisor earned advisory fees of \$478,175. For the year ended February 28, 2019, the Advisor was owed \$138,266 in advisory fees.

Pursuant to a written contract (the “Expense Limitation Agreement”), the Advisor has agreed, at least until November 30, 2020, to waive a portion of its advisory fee and has agreed to reimburse the Fund for other expenses to the extent necessary so that the total expenses incurred by the Fund (excluding front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, borrowing costs (such as interest and dividend expenses on securities sold short), fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including, for example, option and swap fees and expenses), taxes or extraordinary expenses, such as litigation expenses), do not exceed the following amounts per annum of the average daily net assets of each class of shares:

Class A	Class C	Class I	Class L
1.95%	2.70%	1.70%	2.45%

These amounts will herein be referred to as the “expense limitations.”

Any waiver or reimbursement by the Advisor under the Expense Limitation Agreement is subject to repayment by the Fund within three years from the date the Advisor waived any payment or reimbursed any expense, provided that the Fund is able to make the repayment without exceeding the expense limitation in place at the time of waiver or the current expense limitation and the repayment is approved by the Board. The Adviser may not terminate the Expense Limitation Agreement during the

Destra Multi-Alternative Fund
NOTES TO FINANCIAL STATEMENTS
February 28, 2019

4. INVESTMENT MANAGEMENT AND OTHER AGREEMENTS (cont.)

initial term. After the initial term, either the Board or the adviser may terminate the expense reimbursement arrangement upon 60 days' written notice. For the fiscal year ended February 28, 2019, the Advisor waived fees/reimbursed expenses of \$327,457.

The following amounts are subject to recapture by the Adviser by the following dates:

	<u>2/28/2021</u>		<u>2/28/2022</u>
\$	386,639	\$	327,457

Sub-Advisory Agreement — The Fund has engaged Pinhook Capital, LLC) as the primary sub-adviser (the “Sub-Adviser”). The Sub-Advisory Agreement provides that the Sub-Adviser is entitled to receive an annual fee from the Adviser equal to 50% of the net revenue received by the Adviser after any fee waivers and shared expenses between the Adviser and the Sub-Adviser, subject to a maximum of 0.675% of the Fund's average daily net assets. The Sub-Adviser is compensated by the Adviser, not the Fund. The Sub-Adviser served as investment adviser to the Fund until November 30, 2018.

Distributor — The Board has adopted, on behalf of the Fund, a Shareholder Services Plan under which the Fund may compensate financial industry professionals for providing ongoing services in respect of clients with whom they have distributed shares of the Fund. Under the Shareholder Services Plan, the Fund may pay 0.25% per year of its average daily net assets attributed to each of Class A, Class C and Class L shares for such services. For the year ended February 28, 2019, the Fund incurred shareholder servicing fees of \$335,384, \$53,337, and \$14,323 for Class A, Class C and Class L shares, respectively. The Class C and Class L shares also pay to Destra Capital Investments, LLC (the “Distributor”) a distribution fee, payable under distribution plans adopted by the Board (“Distribution Plans”), for certain activities relating to the distribution of shares to investors and maintenance of shareholder accounts. These activities including marketing and other activities to support the distribution of the Class C and Class L shares. Under the Distribution Plans, the Fund pays 0.75% and 0.50% per year of its average daily net assets for such services for Class C and Class L shares, respectively. Effective February 1, 2019 Destra Capital Investments LLC became the Funds' distributor. For the period February 28, 2018 to February 1, 2019, Northern Lights Distributors, LLC (the “Prior Distributor”), an affiliate of GFS, as defined below, served as the Fund's Distributor. For the year ended February 28, 2019, the Fund incurred distributions fees of \$160,011 and \$28,646 for Class C and Class L shares, respectively.

The Distributor acts as the Fund's principal underwriter in a continuous public offering of the Fund's shares. For the fiscal year ended February 28, 2019, the Distributor received \$160,867 and \$2,747 in underwriting commissions for sales of Class A and Class L shares, respectively, of which \$27,033 and \$1,028 were retained by the principal underwriter or other affiliated broker-dealers.

In addition, certain affiliates of the Distributor provide services to the Fund as follows:

Gemini Fund Services, LLC (“GFS”) — GFS, provides administration, fund accounting, and transfer agent services to the Fund. Pursuant to a separate servicing agreement with GFS, the Fund pays GFS customary fees for providing administration, fund accounting and transfer agency services to the Fund. Certain officers of the Trust are also officers of GFS, and are not paid any fees directly by the Fund for serving in such capacities.

Blu Giant, LLC (“Blu Giant”) — Blu Giant, an affiliate of GFS, provides EDGAR conversion and filing services as well as print management services for the Fund on an ad-hoc basis. For the provision of these services, Blu Giant receives customary fees from the Fund.

Effective February 1, 2019, NorthStar Financial Services Group, LLC, the parent company of GFS and its affiliated companies including Northern Lights Distributors, LLC (“NLD”) and Northern Lights Compliance Services, LLC (“NLCS”)(collectively, the “Gemini Companies”), sold its interest in the Gemini Companies to a third party private equity firm that contemporaneously acquired Ultimus Fund Solutions, LLC (an independent mutual fund administration firm) and its affiliates (collectively, the “Ultimus Companies”). As a result of these separate transactions, the Gemini Companies and the Ultimus Companies are now indirectly owned through a common parent entity, The Ultimus Group, LLC.

Other Affiliates — During the fiscal year ended February 28, 2019, Lucia Securities, LLC (“Lucia Securities”), a registered broker/dealer and an affiliate of the Sub-Adviser, executed trades on behalf of the Fund for which it received brokerage

Destra Multi-Alternative Fund
NOTES TO FINANCIAL STATEMENTS

4. INVESTMENT MANAGEMENT AND OTHER AGREEMENTS (cont.)

commissions of \$15,886. The prior Distributor previously entered into an agreement with Lucia Securities under which Lucia Securities provided wholesaling services with respect to the Fund. For the period from March 1, 2018 through November 30, 2018, Lucia Securities received \$5,717 from NLD. NLD started to process fees to the Distributor in December 1, 2018 and Distributor reimbursed NLD \$5,258.29 for the same period, for a net of \$459.

5. INVESTMENT TRANSACTIONS

The cost of purchases and proceeds from the sale of securities, other than short-term securities, for the fiscal year ended February 28, 2019, amounted to \$36,067,105 and \$51,164,049, respectively.

6. REPURCHASE OFFERS / SHARES OF BENEFICIAL INTEREST

Pursuant to Rule 23c-3 under the 1940 Act, on a quarterly basis, the Fund offers shareholders holding all classes of shares the option of redeeming shares at NAV. The Board determines the quarterly repurchase offer amount (“Repurchase Offer Amount”), which can be no less than 5% and no more than 25% of all shares of all classes outstanding on the repurchase request deadline. If shareholders tender more than the Repurchase Offer Amount, the Fund may, but is not required to, repurchase an additional amount of shares not to exceed 2% of all outstanding shares of the Fund on the repurchase request deadline. If the Fund determines not to repurchase more than the Repurchase Offer Amount, or if shareholders tender shares in an amount exceeding the Repurchase Offer Amount plus 2% of all outstanding shares on the repurchase request deadline, the Fund shall repurchase the shares tendered on a pro rata basis. There is no guarantee that a shareholder will be able to sell all of the shares tendered in a quarterly repurchase offer. Limited liquidity will be provided to shareholders only through the Fund’s quarterly repurchases.

7. DISTRIBUTIONS TO SHAREHOLDERS AND TAX COMPONENTS OF CAPITAL

The tax character of distributions paid during the following years was as follows:

	Fiscal Year Ended February 28, 2019	Fiscal Year Ended February 28, 2018
Ordinary Income	\$ 669,250	\$ 3,045,979
Return of Capital	9,468,481	9,181,809
	<u>\$ 10,137,731</u>	<u>\$ 12,227,788</u>

As of February 28, 2019, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Gains	Post October Loss and Late Year Loss	Capital Loss Carry Forwards	Other Book/Tax Differences	Unrealized Appreciation/ (Depreciation)	Total Accumulated Earnings/ (Deficits)
\$ —	\$ —	\$ (2,610,881)	\$ (9,564,667)	\$ —	\$ 17,278,893	\$ 5,103,345

The difference between book basis and tax basis unrealized appreciation of investments, undistributed net investment income (loss), and accumulated net realized loss is primarily attributable to the tax deferral of losses on wash sales and adjustment for partnerships and mark-to-market on passive foreign investment companies.

Late year losses incurred after December 31 within the fiscal year are deemed to arise on the first business day of the following fiscal year for tax purposes. The Fund incurred and elected to defer such late year losses of \$251,953.

Capital losses incurred after October 31 within the fiscal year are deemed to arise on the first business day of the following fiscal year for tax purposes. The Fund incurred and elected to defer such capital losses of \$ 2,610,881.

At February 28, 2019, the Fund had capital loss carry forwards for federal income tax purposes available to offset future capital gains as follows:

Expiring	Non-Expiring Short-Term	Non-Expiring Long-Term	Total	CLCF Utilized
\$ —	\$ 7,560,057	\$ 2,004,610	\$ 9,564,667	\$ —

Permanent book and tax differences, primarily attributable to adjustments related to the reclassification of Fund distributions, resulted in reclassification for the year ended February 28, 2019 as follows:

Paid In Capital	Accumulated Earnings (Losses)
\$ (29,799)	\$ 29,799

8. AGGREGATE UNREALIZED APPRECIATION AND DEPRECIATION — TAX BASIS

Tax Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation/ (Depreciation)
\$ 160,480,014	\$ 34,833,561	\$ (17,554,581)	\$ 17,278,980

9. DISTRIBUTABLE CASH FLOW

The table below has been included to provide additional insight in regards to distribution coverage metrics for the Fund, particularly in regards to how to differentiate between the tax components of distributions and the actual non-GAAP cash flows received from the Fund's underlying investments. One of the advantages that the Fund is able to provide to investors is the tax characterizations of distributions received. For example, a portion of distributions received from REITs and certain partnerships are often treated as a non-taxable return of capital as an inherent structural advantage of the underlying investments. This allows

Destra Multi-Alternative Fund
NOTES TO FINANCIAL STATEMENTS
February 28, 2019

9. DISTRIBUTABLE CASH FLOW (cont.)

for the deferral of tax consequences on certain distributions. As such, from a tax characterization, these are considered a “return of capital” but are, in actuality, still a cash inflow source received from the underlying investments. The table is specifically designed to better inform investors of the distributable cash flows received, and the distribution coverage they represent. For example, as can be seen below, for the fiscal year ended February 28, 2019, only 76.9% of distributions were represented by gross income as defined by the Fund’s Statement of Operations (tax-basis), but when factoring in the tax adjustments attributable to underlying investments, these total distributions, dividends and interest represented 106% of gross distributions made by the Fund. The table also includes additional lines for coverage when factoring in total net fees and expenses, as well as net realized gains and losses. This information is supplemental, unaudited, and is not inclusive of required financial disclosures (such as total expense ratio), and should be read in conjunction with the Fund’s full financial statements.

	For the Year Ended February 28, 2019	For the Year Ended February 28, 2018
Gross Income Per Statement of Operations:	7,795,565	6,580,963
<u>Tax Adjustments attributable to underlying investments</u> ⁽¹⁾ :	<u>2,921,531</u>	<u>5,808,377</u>
Total Distributions, dividends and interest from underlying investments:	\$ 10,717,096	\$ 12,389,340
<u>Distributions to Shareholders</u> :	<u>\$ (10,137,731)</u>	<u>\$ (12,227,788)</u>
Gross Distribution Coverage Ratio:	106%	101%
Total net fees and expenses (breakdown)		
Total Fees & Expenses:	\$ 4,545,568	\$ 4,288,234
<u>Fees Waived (added back)</u> :	<u>\$ (327,457)</u>	<u>\$ (386,639)</u>
<u>Total Net Fees & Expenses</u> :	<u>\$ 4,218,111</u>	<u>\$ 3,901,595</u>
<u>Net Distributable Income</u> :	<u>\$ 6,498,985</u>	<u>\$ 8,487,745</u>
Distribution Coverage Ratio excluding Net Realized G/L:	64%	69%
<u>Net Realized Gain/(Loss)</u> :	<u>\$ (11,716,308)</u>	<u>\$ (1,151,003)</u>
Distribution Coverage Ratio including Net Realized G/L:	-51%	60%

(1) Tax adjustments attributable to REITs and other investments are adjustments to reflect the tax character of distributions received from underlying investments. Specifically, a portion of distributions received from REITs are often treated as non-taxable return of capital for book and tax purposes and distributions received from investments structured as partnerships are also treated as return of capital to the extent the distributions received exceed the income reported to the Fund on the Form K-1’s received from the underlying investments.

10. CREDIT FACILITY

The Fund has the opportunity to borrow money from Barclays via a credit facility with a variable limit based on how many securities are pledged as collateral. It is intended to provide financing, if necessary, subject to certain restrictions, in connection with shareholder redemptions. Borrowings are secured by certain of the Fund’s investments. Interest is accrued at the 1 Month LIBOR rate plus 180 basis points to be paid monthly. During the fiscal year ended February 28, 2019, the Fund paid \$220,797 in interest on the borrowings. Average borrowings and the average interest rate during the fiscal year ended February 28, 2019, were \$17,747,814 and 3.69%, respectively. The largest outstanding amount borrowed during the fiscal year was \$23,800,000. The balance due to the broker as of February 28, 2019 was \$23,800,000.

11. SUBSEQUENT EVENTS

Subsequent events after the date of the Statement of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has concluded that there is no impact requiring adjustment or disclosure in the financial statements. On March 28, 2019, the Fund paid distributions of \$0.0685, \$0.0664, \$0.0696 and \$0.0671 per share to shareholders of record on March 27, 2019 for Class A, Class C, Class I and Class L shares, respectively. The Fund completed a quarterly repurchase offer on April 22, 2019 which resulted in 7.09%, 6.01%, 2.24% and 5.65% of Fund shares being repurchased for \$6,398,295, \$795,059, \$371,645 and \$221,908 for Class A, Class C, Class I and Class L, respectively.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the shareholders and the Board of Trustees of Destra Multi-Alternative Fund

Opinion on the Financial Statements and Financial Highlights

We have audited the accompanying statement of assets and liabilities of Destra Multi-Alternative Fund (formerly known as the Multi-Strategy Growth & Income Fund) (the “Fund”), including the portfolio of investments as of February 28, 2019, the related statements of operations and cash flows for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the two years in the period then ended, and the related notes. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of February 28, 2019, and the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for the two years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. The statement of changes in net assets for the period ended February 28, 2017 and the financial highlights for each of the respective stated periods in the three-year period ended February 28, 2017 were audited by other auditors whose report, dated April 28, 2017 expressed an unqualified opinion on those statements.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of February 28, 2019, by correspondence with the custodian and underlying investment fund managers and advisers. We believe that our audits provide a reasonable basis for our opinion.

Costa Mesa, California

SUPPLEMENTAL INFORMATION (Unaudited)
February 28, 2019

Consideration and Approval of Proposed Advisory Agreement

At a meeting held on October 2, 2018, the Board of Trustees (the “Board” or the “Trustees”), including the Independent Trustees, unanimously approved a proposed advisory agreement between Destra Capital Advisors LLC (“Destra”) and Multi-Strategy Growth & Income Fund (the “Fund”) (the “Proposed Advisory Agreement”). In considering the approval of the Advisory Agreement, the Trustees received materials specifically relating to the Advisory Agreement.

The Board reviewed and discussed the written materials that were provided in advance of the Meeting and deliberated on the approval of the Proposed Advisory Agreement. The Board relied upon the advice of independent legal counsel and their own business judgment in determining the material factors to be considered in evaluating the Proposed Advisory Agreement and the weight to be given to each such factor. The conclusions reached by the Board were based on a comprehensive evaluation of all of the information provided and were not the result of any one factor. Moreover, each Trustee may have afforded different weight to the various factors in reaching his conclusions with respect to the Advisory Agreement.

Nature, Extent and Quality of Service. In evaluating whether to approve the Proposed Advisory Agreement, the Board considered the nature, extent and quality of services to be provided under the agreement. They noted that Destra currently served as the investment adviser to three registered investment companies, including an interval fund like the Fund, and they observed that the Destra’s personnel have significant experience in investment company management. The Board evaluated the compliance program developed by Destra, including the background and experience of compliance personnel. The Board noted Destra’s intention to make no changes to the Fund’s investment objectives or strategy. In light of the Fund’s investment strategy, the Board also reviewed Destra’s fair valuation policies and procedures. In addition to the proposed advisory services, the Board also considered that Destra intended to engage LCM Investment Management, LLC (“LCM”), the Fund’s current adviser, as the Fund’s sub-adviser responsible for all trading, portfolio construction and investment operations, noting that it was anticipated that LCM personnel currently responsible for managing the Fund’s portfolio would continue to manage the Fund on behalf of LCM as the proposed sub-adviser. The Board considered Destra’s oversight process, noting that the firm intended to regularly engage with the Fund, the portfolio, and the sub-adviser, monitor compliance and portfolio construction on a daily basis, and conduct regular reviews of the sub-adviser. The Board concluded it was comfortable that Destra had the capabilities and resources to oversee the operations of the Fund. Based on their review, the Trustees concluded that, overall, the nature, extent and quality of services expected to be provided to the Fund were satisfactory.

Performance. The Board considered Destra’s investment philosophy and experience and its history in managing investment companies, and it reviewed the performance history of other funds managed by Destra, noting that they had shown generally positive returns and favorable Morningstar ratings. The Board also considered that Destra will delegate responsibility for the day-to-day management of the Fund to LCM, and LCM would continue to manage the Fund in the same manner once engaged as the Fund’s sub-adviser.

Fees and Expenses. The Trustees reviewed information regarding fees charged by advisers to a peer group of funds with investment objectives and strategies comparable to the Fund’s. The Trustees remarked that the proposed advisory fee of 1.35% was equal to the Fund’s current advisory fee and was slightly less than the peer group average. The Trustees remarked that the proposed advisory fee, while higher than the US Closed-end Multialternative Morningstar category average, was still well within the range of fees charged by funds in that category. The Trustees also considered that Destra had agreed to maintain the Fund’s current expense limitations of 1.95% of Class A shares’ net assets, 2.45% of Class L shares’ net assets, 2.70% of Class C shares’ net assets and 1.70% of Class I shares’ net assets. After further discussion, the Board concluded that the proposed advisory fee of 1.35% remained competitive and reasonable.

Economies of Scale. The Trustees considered whether Destra will realize economies of scale with respect to the management of the Fund. The Trustees agreed that while meaningful economies of scale had not yet been reached, they would continue to monitor Fund growth and evaluate the appropriateness of breakpoints in the advisory fee as Fund assets increase.

Profitability. The Trustees considered the projected profits by Destra in connection with the operation of the Fund for the first two years under the Proposed Advisory Agreement and whether the amount of profit would be a fair entrepreneurial profit for the management of the Fund. The Trustees noted that Destra expected to receive a reasonable profit both in terms of percentage of revenue and dollar amount over both years. The Board concluded that Destra’s estimated level of profitability from its relationship with the Fund was not excessive.

Destra Multi-Alternative Fund
SUPPLEMENTAL INFORMATION (Unaudited)
February 28, 2019

Consideration and Approval of Proposed Advisory Agreement (cont.)

15(f) Considerations. The Trustees noted that section 15(f) of the Investment Company Act of 1940 (“the 1940 Act”) provides a safe harbor to investment advisers who may receive compensation or benefits in connection with the sale of securities or a sale of any other interest in the investment adviser, which results in an assignment of an investment advisory contract. They further noted that the safe harbor is conditioned on the following: (i) for a period of three years after the time of such sale, at least 75% of the board of trustees are not (a) interested persons of the investment adviser, as the term is defined in the 1940 Act, and (b) there is not imposed an unfair burden as a result of the sale. They considered that although LCM is not directly selling any interests in LCM to Destra, LCM and Destra have entered into a purchase agreement whereby LCM will receive compensation from Destra if Destra is retained as adviser to the Fund. They noted that it was anticipated that after the transaction, at least 75% of the Board of Trustees of the Fund would be independent. They also considered whether the retention of Destra will impose an unfair burden on the Fund’s shareholders. After discussion, they concluded that the retention of Destra was unlikely to impose an unfair burden on the Fund’s shareholders because after the transaction, none of Destra, LCM, or any of their affiliates would be entitled to receive any compensation directly or indirectly (i) from any person in connection with the purchase or sale of securities or other property to, from, or on behalf of the Fund, or (ii) from the Fund for other than bona fide investment advisory or other services.

Conclusion. Having requested and received such information from Destra as the Board believed to be reasonably necessary to evaluate the terms of the Proposed Advisory Agreement, and as assisted by the advice of counsel, the Board concluded that the advisory fee is reasonable and that approval of the Proposed Advisory Agreement is in the best interests of the shareholders of the Fund.

Consideration and Approval of the Proposed Sub-Advisory Agreement

Also, at the meeting held on October 2, 2018, the Trustees, including the Independent Trustees, unanimously approved a proposed sub-advisory agreement between Destra and LCM with respect to the Fund (“Proposed Sub-Advisory Agreement”).

The Board reviewed and discussed the written materials that were provided in advance of the Meeting and deliberated on the approval of the Proposed Sub-Advisory Agreement. The Board relied upon the advice of independent legal counsel and their own business judgment in determining the material factors to be considered in evaluating the Proposed Sub-Advisory Agreement and the weight to be given to each such factor. The conclusions reached by the Board were based on a comprehensive evaluation of all of the information provided and were not the result of any one factor. Moreover, each Trustee may have afforded different weight to the various factors in reaching his conclusions with respect to the Proposed Sub-Advisory Agreement. In considering the approval of the Proposed Sub-Advisory Agreement, the Board reviewed and analyzed various factors that they determined were relevant, including the factors enumerated below.

Nature, Extent and Quality of Service. The Trustees examined the nature, extent and quality of the services to be provided by LCM to the Fund. The Trustees noted their familiarity with LCM and its personnel because the firm currently served the Fund as its adviser. The Trustees expressed satisfaction with the overall historical management of the Fund, as well as with the continued evolution and growth of LCM’s management team and investment process. The Trustees discussed the strategy of the Fund and its key risks, and they expressed the opinion that LCM is managing portfolio risks well. The Trustees discussed historical enhancements that LCM had made to its team and its portfolio management processes. The Trustees also discussed in detail LCM’s research processes, noting that the firm thoroughly analyzed sponsor and manager capabilities and evaluated the quality of the underlying portfolios. They also evaluated LCM’s proprietary multi-stage, multi-factor framework for selecting, evaluating and monitoring investment opportunities across different sectors and expressed their satisfaction with that process. The Trustees noted LCM had reported no material compliance incidents, litigation or administrative actions over the period in question. Overall, it was the consensus of the Trustees that they were satisfied with the nature, extent and quality of the services provided to the Fund by LCM and anticipated that Fund shareholders would continue to receive the same quality of services from LCM when the firm was engaged as the Fund’s sub-adviser.

Performance. The Trustees considered the Fund’s past performance and the Fund’s investment objective of seeking returns from capital appreciation and income, with an emphasis on the generation of income. The Trustees also reviewed the Fund’s investment policy of maintaining a core allocation to alternative assets. The Trustees also noted that LCM had previously served as the Fund’s investment adviser for the entirety of the Fund’s operations. The Trustees noted their satisfaction with

Destra Multi-Alternative Fund
SUPPLEMENTAL INFORMATION (Unaudited)
February 28, 2019

Consideration and Approval of the Proposed Sub-Advisory Agreement (cont.)

the fact that the Fund had delivered positive annualized returns on a since-inception basis while simultaneously exhibiting lower overall risk metrics versus the S&P 500 Total Return Index over that period. They further noted that while the Fund underperformed the peer group over the past year, the Fund had substantially outperformed the Morningstar U.S. Closed-end Category average over the same time period. They also observed that the Fund's performance had been consistent with that of the peer group over the since inception time period. The Trustees noted that, since inception, consistent with the Fund's stated strategy, the Fund's performance was regularly between the returns of the Barclays US Aggregate Bond Index and the S&P 500 Total Return Index. The Trustees concluded that overall, the Fund was performing in line with its goals and objectives across a variety of market environments, and they agreed that the Fund's performance was satisfactory.

Fees and Expenses. The Trustees considered the proposed sub-advisory fee, noting that the contractual amount was equal to 50% of the net revenue received by Destra, after any fee waivers, subject to a maximum of 0.675% of the Fund's average daily net assets. They observed that the sub-advisory fee would be paid by Destra, not the Fund, and concluded that the proposed sub-advisory fee was not unreasonable.

Economies of Scale. The Trustees considered whether LCM will experience economies of scale with respect to the management of the Fund. The Trustees agreed that this was primarily an adviser level issue and should be considered with respect to the overall advisory contract, taking into consideration the impact of the sub-advisory expense. After discussion, it was the consensus of the Trustees that a lack of breakpoints was acceptable and the shareholders will benefit from lower overall expenses as the Fund grows.

Profitability. The Trustees considered the anticipated profits to be realized by LCM in connection with its relationship with the Fund and whether the amount of profit is a fair entrepreneurial profit with respect to the sub-advisory services to be provided to the Fund. The Trustees noted that LCM estimates realizing a loss during its first year of engagement as sub-adviser and only a slight profit during the second year of such engagement. The Trustees considered the quality of services anticipated to be provided by LCM, and they concluded the anticipated level of profit was not excessive.

15(f) Considerations. The Trustees noted that section 15(f) of the 1940 Act provides a safe harbor to investment advisers who may receive compensation or benefits in connection with the sale of securities or a sale of any other interest in the investment adviser, which results in an assignment of an investment advisory contract. They further noted that the safe harbor is conditioned on the following: (i) for a period of three years after the time of such sale, at least 75% of the board of trustees are not (a) interested persons of the investment, as the term is defined in the 1940 Act, and (b) there is not imposed an unfair burden as a result of the sale. They considered that although LCM is not directly selling any interests in LCM to Destra, LCM and Destra have entered into a purchase agreement whereby LCM will receive compensation from Destra if Destra is retained as adviser to the Fund. They noted that it was anticipated that after the transaction, at least 75% of the Board of Trustees of the Fund would be independent. They also considered whether the retention of LCM will impose an unfair burden on the Fund's shareholders. After discussion, they concluded that the retention of LCM was unlikely to impose an unfair burden on the Fund's shareholders because after the transaction, none of Destra, LCM, or any of their affiliates would be entitled to receive any compensation directly or indirectly (i) from any person in connection with the purchase or sale of securities or other property to, from, or on behalf of the Fund, or (ii) from the Fund for other than bona fide investment advisory or other services.

Conclusion. Having requested and received such information from LCM as the Board believed to be reasonably necessary to evaluate the terms of the Proposed Sub-Advisory Agreement, and as assisted by the advice of counsel, the Board concluded that the advisory fee is reasonable and that approval of the Proposed Sub-Advisory Agreement is in the best interests of the shareholders of the Fund.

Destra Multi-Alternative Fund
SUPPLEMENTAL INFORMATION (Unaudited)
February 28, 2019

Consideration and Approval of the Proposed Sub-Advisory Agreement (cont.)

At a special meeting of the Shareholders of the Fund, held at the offices of Gemini Fund Services, LLC, 80 Arkay Drive, Suite 110, Hauppauge, NY 11788, on Tuesday, November 20, 2018 at 10:00 a.m., Fund shareholders of record as of the close of business October 3, 2018, voted to approve the following proposals:

Proposal 1: To approve a new advisory agreement between Destra Capital Advisors LLC and the Fund.

Shares Voted In Favor	Shares Voted Against	Shares Voted Abstentions
5,289,105	88,720	395,824

Proposal 2: To approve a new sub-advisory agreement between Destra Capital Advisors LLC and LCM Investment Management, LLC.

Shares Voted In Favor	Shares Voted Against	Shares Voted Abstentions
5,278,994	91,243	403,412

Proposal 3: To elect four (4) Trustees

	Shares Voted In Favor	Shares Voted Against
